International Standards and Recommended Practices

Annex 9
to the Convention on
International Civil Aviation

Facilitation

This edition incorporates all amendments adopted by the Council prior to 8 March 2005 and supersedes, on 24 November 2005, all previous editions of Annex 9.

For information regarding the applicability of the Standards and Recommended Practices, see Foreword.

Twelfth Edition July 2005

International Civil Aviation Organization

Published in separate English, Arabic, Chinese, French, Russian and Spanish editions by the International Civil Aviation Organization. All correspondence, except orders and subscriptions, should be addressed to the Secretary General.

Orders should be sent to one of the following addresses, together with the appropriate remittance in U.S. dollars or in the currency of the country in which the order is placed. Customers are encouraged to use credit cards (MasterCard, Visa or American Express) to avoid delivery delays. Information on payment by credit card and by other methods is available in the Ordering Information Section of the *Catalogue of ICAO Publications*.

TRANSMITTAL NOTE

NEW EDITIONS OF ANNEXES TO THE CONVENTION ON INTERNATIONAL CIVIL AVIATION

It has come to our attention that when a new edition of an Annex is published, users have been discarding, along with the previous edition of the Annex, the **Supplement** to the previous edition. Please note that the Supplement to the previous edition should be retained until a new Supplement is issued.

International Standards and Recommended Practices

Annex 9
to the Convention on
International Civil Aviation

Facilitation

This edition incorporates all amendments adopted by the Council prior to 8 March 2005 and supersedes, on 24 November 2005, all previous editions of Annex 9.

For information regarding the applicability of the Standards and Recommended Practices, see Foreword.

Twelfth Edition July 2005

International Civil Aviation Organization

AMENDMENTS

The issue of amendments is announced regularly in the *ICAO Journal* and in the monthly *Supplement to the Catalogue of ICAO Publications and Audio-visual Training Aids*, which holders of this publication should consult. The space below is provided to keep a record of such amendments.

FOREWORD

Historical background

Standards and Recommended Practices on Facilitation were first adopted by the Council on 25 March 1949, pursuant to the provisions of Article 37 of the Convention on International Civil Aviation (Chicago, 1944), and designated as Annex 9 to the Convention with the title "Standards and Recommended Practices — Facilitation". They became effective on 1 September 1949. The Standards and Recommended Practices were based on recommendations of the First and Second Sessions of the Facilitation Division, held at Montreal in February 1946 and at Geneva in June 1948. They were expanded and amended comprehensively as a result of subsequent Sessions of the Division, i.e., the Third Session, held at Buenos Aires in December 1951, the Fourth Session, held at Manila in October 1955, the Fifth Session, held at Rome in December 1959, the Sixth Session, held at Mexico City in March-April 1963, the Seventh Session, held at Montreal in May 1968, the Eighth Session, held at Dubrovnik in March 1973, the Ninth Session held at Montreal in April-May 1979, the Tenth Session held at Montreal in September 1988 and the Eleventh Session held in Montreal in April 1995, and the Third Meeting of the Facilitation (FAL) Panel held in Montreal in February 2001. As a result of the Division's and FAL Panel's Recommendations for amendment of Annex 9 and Council's action thereon, the Second Edition of Annex 9 became effective on 1 March 1953, the Third Edition on 1 November 1956, the Fourth Edition on 1 November 1960, the Fifth Edition on 1 April 1964, the Sixth Edition on 1 April 1969, the Seventh Edition on 15 April 1974, the Eighth Edition on 15 July 1980, the Ninth Edition on 15 November 1990, the Tenth Edition on 30 April 1997 and the Eleventh Edition on 15 July 2002.

Twelfth Edition.— The present edition incorporates, inter alia, provisions arising from the A-type recommendations of the Twelfth Session of the Facilitation Division (FAL/12) (Cairo, Egypt, 22 March to 1 April 2004) on issues including Machine Readable Travel Documents (MRTDs), the deployment of biometric technologies in travel documents, aviation security, travel document fraud and illegal immigration, advance passenger information, international health issues and regulations, and assistance to aircraft accident victims and their families. This again resulted in a comprehensive amendment of Annex 9. This Twelfth Edition of Annex 9 became effective on 11 July 2005 and is to become applicable on 24 November 2005.

The Standards and Recommended Practices on Facilitation are the outcome of Article 37 of the Convention, which

provides, inter alia, that the "International Civil Aviation Organization shall adopt and amend from time to time, as may be necessary, international standards and recommended practices and procedures dealing with . . . customs and immigration procedures . . . and such other matters concerned with the safety, regularity and efficiency of air navigation as may from time to time appear appropriate". The policy with respect to the implementation by States of the Standards and Recommended Practices on Facilitation is strengthened by Article 22 of the Convention, which expresses the obligation accepted by each Contracting State "to adopt all practicable measures, through the issuance of special regulations or otherwise, to facilitate and expedite navigation by aircraft between the territories of Contracting States, and to prevent unnecessary delays to aircraft, crews, passengers, and cargo, especially in the administration of the laws relating to immigration, quarantine, customs and clearance", and by Article 23 of the Convention, which expresses the undertaking of each Contracting State "so far as it may find practicable, to establish customs and immigration procedures affecting international air navigation in accordance with the practices which may be established or recommended from time to time pursuant to this Convention".*

In addition to the Standards and Recommended Practices of Annex 9, the Organization's FAL Programme is based on the FAL Resolutions of the Assembly and B-type recommendations of FAL Division Sessions which are those recommendations which do not suggest amendments to the Annex provisions.

Applicability

As indicated in Chapter 1, Section B, the Standards and Recommended Practices in this document apply to all

^{*} A number of other articles of the Convention have special pertinence to the provisions of the FAL Annex and have been taken into account in its preparation. In particular, persons responsible for the implementation of the provisions of this Annex should be familiar with the following articles in addition to Articles 22 and 23:

Article 10, Landing at customs airport;

Article 11, Applicability of air regulations;

Article 13, Entry and clearance regulations;

Article 14, Prevention of spread of disease;

Article 24, Customs duty;

Article 29, Documents carried in aircraft;

Article 35, Cargo restrictions.

Annex 9 — Facilitation Foreword

categories of aircraft operation except where a particular provision specifically refers to one type of operation without mentioning other types of operations.

The Standards and Recommended Practices on Facilitation inevitably take two forms: first a "negative" form, e.g. that States shall not impose more than certain maximum requirements in the way of paperwork, restrictions of freedom of movement, etc., and second a "positive" form, e.g. that States shall provide certain minimum facilities for passenger convenience, for traffic which is merely passing through, etc. Whenever a question arises under a "negative" provision, it is assumed that States will, wherever possible, relax their requirements below the maximum set forth in the Standards and Recommended Practices. Wherever there is a "positive" provision, it is assumed that States will, wherever possible, furnish more than the minimum set forth in the Standards and Recommended Practices.

Action by Contracting States

Notification of differences. The attention of Contracting States is drawn to the obligation imposed by Article 38 of the Convention by which Contracting States are required to notify the Organization of any differences between their national regulations and practices and the International Standards contained in this Annex and any amendments thereto. Contracting States are invited to extend such notification to any differences from the Recommended Practices contained in this Annex, and any amendments thereto. Further, Contracting States are invited to keep the Organization currently informed of any differences which may subsequently occur, or of the withdrawal of any differences previously notified. A specific request for notification of differences will be sent to Contracting States immediately after the adoption of each Amendment to this Annex.

Attention of States is also drawn to the provision of Annex 15 related to the publication of significant differences between their national regulations and practices and the related ICAO Standards and Recommended Practices through the Aeronautical Information Service, in addition to the obligation of States under Article 38 of the Convention.

Promulgation of information. The establishment and withdrawal of and changes to facilities, services and procedures affecting aircraft operations provided in accordance with the Standards and Recommended Practices specified in this Annex should be notified and take effect in accordance with the provisions of Annex 15.

Contracting States should make every effort to publish the FAL information required by Annex 15 (as amplified by the *Aeronautical Information Services Manual* — Doc 8126) and, in particular, ensure that they conform with the new requirements as to presentation and contents of such information prescribed by the Twelfth Edition of Annex 15.

Use of the text of the Annex in national regulations. The Council, on 13 April 1948, adopted a resolution inviting the attention of Contracting States to the desirability of using in their own national regulations, as far as practicable, the precise language of those ICAO Standards that are of a regulatory character and also indicating departures from the Standards, including any additional national regulations that were important for the safety or regularity of air navigation. Wherever possible, the provisions of this Annex have been written in such a way as would facilitate incorporation, without major textual changes, into national legislation.

General information

An Annex is made up of the following component parts, not all of which, however, are necessarily found in every Annex; they have the status indicated:

- 1.— Material comprising the Annex proper
 - a) Standards and Recommended Practices adopted by the Council under the provisions of the Convention. They are defined, in the case of this Annex, as follows:

Standard: Any specification, the uniform observance of which has been recognized as practicable and as necessary to facilitate and improve some aspect of international air navigation, which has been adopted by the Council pursuant to Article 54 (*I*) of the Convention, and in respect of which non-compliance must be notified by Contracting States to the Council in accordance with Article 38

Recommended Practice: Any specification, the observance of which has been recognized as generally practicable and as highly desirable to facilitate and improve some aspect of international air navigation, which has been adopted by the Council pursuant to Article 54 (*I*) of the Convention, and to which Contracting States will endeavour to conform in accordance with the Convention.

- b) Appendices comprising material grouped separately for convenience but forming part of the Standards and Recommended Practices adopted by the Council.
- c) Definitions of terms used in the Standards and Recommended Practices which are not self-explanatory in that they do not have accepted dictionary meanings. A definition does not have an independent status but it is an essential part of each Standard and Recommended Practice in which the term is used, since a change in the meaning of the term would affect the specification.

24/11/05 (vi)

Foreword Annex 9 — Facilitation

2.— Material approved by the Council for publication in association with the Standards and Recommended Practices

- a) Forewords comprising historical and explanatory material based on the action of the Council and including an explanation of the obligations of States with regard to the application of the Standards and Recommended Practices ensuing from the Convention and the Resolution of Adoption.
- b) Introductions comprising explanatory material introduced at the beginning of parts, chapters or sections of the Annex to assist in the understanding of the application of the text.
- c) Notes included in the text, where appropriate, to give factual information or references bearing on the Standards or Recommended Practices in question, but not constituting part of the Standards or Recommended Practices.
- d) *Attachments* comprising material supplementary to the Standards and Recommended Practices, or included as a guide to their application.

This Annex has been adopted in six languages — English, Arabic, Chinese, French, Russian and Spanish. Each Contracting State is requested to select one of those texts for the purpose of national implementation and for other effects provided for in the Convention, either through direct use or through translation into its own national language, and to notify the Organization accordingly.

The following practice has been adhered to in order to indicate at a glance the status of each statement: *Standards* have been printed in light face roman; *Recommended Practices* have been printed in light face italics, the status being indicated by the words **Recommended Practice**; *Notes* have been printed in light face italics, the status being indicated by the prefix *Note*.

Any reference to a portion of this document which is identified by a number includes all subdivisions of the portion.

Throughout this Annex, the use of the male gender should be understood to include male and female persons.

(vii) 24/11/05

INTERNATIONAL STANDARDS AND RECOMMENDED PRACTICES

CHAPTER 1. DEFINITIONS AND GENERAL PRINCIPLES

A. Definitions

When the following terms are used in the Standards and Recommended Practices on Facilitation, they have the following meanings:

- **Admission**. The permission granted to a person to enter a State by the public authorities of that State in accordance with its national laws.
- **Aircraft equipment.** Articles, including first-aid and survival equipment and commissary supplies, but not spare parts or stores, for use on board an aircraft during flight.
- **Aircraft operator.** A person, organization or enterprise engaged in or offering to engage in an aircraft operation.
- Aircraft operators' documents. Air waybills/consignment notes, passenger tickets and boarding passes, bank and agent settlement plan documents, excess baggage tickets, miscellaneous charges orders (M.C.O.), damage and irregularity reports, baggage and cargo labels, timetables, and weight and balance documents, for use by aircraft operators.
- **Airline.** As provided in Article 96 of the Convention, any air transport enterprise offering or operating a scheduled international air service.
- Authorized agent. A person who represents an aircraft operator and who is authorized by or on behalf of such operator to act on formalities connected with the entry and clearance of the operator's aircraft, crew, passengers, cargo, mail, baggage or stores and includes, where national law permits, a third party authorized to handle cargo on the aircraft.
- Aviation safety inspector. For the purposes of Annex 9, an aviation safety inspector is an individual, designated by a Contracting State, who is charged with the inspection of the safety-related aspects of air transport operations as directed by the appropriate authority.

Note.— Examples of safety inspectors include airworthiness or flight operations and any other safety related aspects of air transport operations.

- **Baggage.** Personal property of passengers or crew carried on an aircraft by agreement with the operator.
- **Border integrity.** The enforcement, by a State, of its laws and/or regulations concerning the movement of goods and/or persons across its borders.
- *Cargo.* Any property carried on an aircraft other than mail, stores and accompanied or mishandled baggage.
- Clearance of goods. The accomplishment of the customs formalities necessary to allow goods to enter home use, to be exported or to be placed under another customs procedure.
- Commencement of journey. The point at which the person began his journey, without taking into account any airport at which he stopped in direct transit, either on a throughflight or a connecting flight, if he did not leave the direct transit area of the airport in question.
- **Commissary supplies.** Items, either disposable or intended for multiple use, that are used by the aircraft operator for provision of services during flights, in particular for catering, and for the comfort of passengers.
- *Crew member.* A person assigned by an operator to duty on an aircraft during a flight duty period.
- **Declarant.** Any person who makes a goods declaration or in whose name such a declaration is made.
- **Deportation order.** A written order, issued by the competent authorities of a State and served upon a deportee, directing him to leave that State.
- **Deportee.** A person who had legally been admitted to a State by its authorities or who had entered a State illegally, and who at some later time is formally ordered by the competent authorities to leave that State.
- **Direct transit area.** A special area established in an international airport, approved by the public authorities concerned and under their direct supervision or control, where passengers can stay during transit or transfer without applying for entry to the State.

- **Direct transit arrangements.** Special arrangements approved by the public authorities concerned by which traffic which is pausing briefly in its passage through the Contracting State may remain under their direct control.
- **Disembarkation.** The leaving of an aircraft after a landing, except by crew or passengers continuing on the next stage of the same through-flight.
- **Disinsection.** The operation in which measures are taken to control or kill insects present in aircraft and in containers.
- **Embarkation.** The boarding of an aircraft for the purpose of commencing a flight, except by such crew or passengers as have embarked on a previous stage of the same throughflight.
- eMRTD. An MRTD (passport, visa or card) that has a contactless integrated circuit embedded in it and the capability of being used for biometric identification of the MRTD holder in accordance with the standards specified in the relevant Part of Doc 9303 Machine Readable Travel Documents.
- Flight crew member. A licensed crew member charged with duties essential to the operation of an aircraft during a flight duty period.
- *Free zone.* A part of the territory of a Contracting State where any goods introduced are generally regarded, insofar as import duties and taxes are concerned, as being outside the customs territory.
- **General aviation operation.** An aircraft operation other than a commercial air transport operation or an aerial work operation.
- **Ground equipment.** Articles of a specialized nature for use in the maintenance, repair and servicing of an aircraft on the ground, including testing equipment and cargo- and passenger-handling equipment.
- ICAO Public Key Directory (ICAO PKD). The central database serving as the repository of Document Signer Certificates (C_{DS}) (containing Document Signer Public Keys), CSCA Master List (ML_{CSCA}), Country Signing CA Link Certificates (IC_{CSCA}) and Certificate Revocation Lists issued by Participants, together with a system for their distribution worldwide, maintained by ICAO on behalf of Participants in order to facilitate the validation of data in eMRTDs.
- **Immigration control.** Measures adopted by States to control the entry into, transit through and departure from their territories of persons travelling by air.
- *Import duties and taxes.* Customs duties and all other duties, taxes or charges, which are collected on or in connection with the importation of goods. Not included are any charges

which are limited in amount to the approximate cost of services rendered or collected by the customs on behalf of another national authority.

- Improperly documented person. A person who travels, or attempts to travel: (a) with an expired travel document or an invalid visa; (b) with a counterfeit, forged or altered travel document or visa; (c) with someone else's travel document or visa; (d) without a travel document; or (e) without a visa, if required.
- *Inadmissible person.* A person who is or will be refused admission to a State by its authorities.
- Infected area. (for human health purposes) Defined as geographical areas where human and/or animal vector-borne diseases are actively transmitted, as reported by local or national public health authorities or by the World Health Organization.

Note.— A list of infected areas notified by health administrations is published in the World Health Organization's Weekly Epidemiological Record.

- International airport. Any airport designated by the Contracting State in whose territory it is situated as an airport of entry and departure for international air traffic, where the formalities incident to customs, immigration, public health, animal and plant quarantine and similar procedures are carried out.
- **Lading.** The placing of cargo, mail, baggage or stores on board an aircraft to be carried on a flight.
- **Mail.** Dispatches of correspondence and other items tendered by and intended for delivery to postal services in accordance with the rules of the Universal Postal Union (UPU).
- *Mishandled baggage.* Baggage involuntarily, or inadvertently, separated from passengers or crew.
- **Narcotics control.** Measures to control the illicit movement of narcotics and psychotropic substances by air.
- **Passenger amenities.** Facilities provided for passengers which are not essential for passenger processing.
- **Person with disabilities.** Any person whose mobility is reduced due to a physical incapacity (sensory or locomotor), an intellectual deficiency, age, illness or any other cause of disability when using transport and whose situation needs special attention and the adaptation to the person's needs of the services made available to all passengers.
- **Pilot-in-command.** The pilot responsible for the operation and safety of the aircraft during flight time.
- **Public authorities.** The agencies or officials of a Contracting State responsible for the application and enforcement of the

Chapter 1 Annex 9 — Facilitation

particular laws and regulations of that State which relate to any aspect of these Standards and Recommended Practices.

- Public health emergency of international concern. An extraordinary event which is determined, as provided in the *International Health Regulations* (2005) of the World Health Organization: (i) to constitute a public health risk to other States through the international spread of disease and (ii) to potentially require a coordinated international response.
- **Public health risk.** A likelihood of an event that may affect adversely the health of human populations, with an emphasis on one which may spread internationally or may present a serious and direct danger.
- **Release of goods.** The action by the customs authorities to permit goods undergoing clearance to be placed at the disposal of the persons concerned.
- **Relief flights.** Flights operated for humanitarian purposes which carry relief personnel and relief supplies such as food, clothing, shelter, medical and other items during or after an emergency and/or disaster and/or are used to evacuate persons from a place where their life or health is threatened by such emergency and/or disaster to a safe haven in the same State or another State willing to receive such persons.
- **Removal of a person.** Action by the public authorities of a State, in accordance with its laws, to direct a person to leave that State.
- **Removal order.** A written order served by a State on the operator on whose flight an inadmissible person travelled into that State, directing the operator to remove that person from its territory.
- **Risk assessment.** An assessment by a deporting State of a deportee's suitability for escorted or unescorted removal via commercial air services. The assessment should take into account all pertinent factors, including medical, mental and physical fitness for carriage on a commercial flight, willingness or unwillingness to travel, behavioural patterns and any history of violence.
- **Risk management.** The systematic application of management procedures and practices which provide border inspection agencies with the necessary information to address movements or consignments which represent a risk.
- **Security equipment.** Devices of a specialized nature for use, individually or as part of a system, in the prevention or detection of acts of unlawful interference with civil aviation and its facilities.
- **Spare parts.** Articles, including engines and propellers, of a repair or replacement nature for incorporation in an aircraft.
- State of Registry. The State on whose register the aircraft is entered.

- Stores (Supplies). a) Stores (supplies) for consumption; and b) Stores (supplies) to be taken away.
 - Stores (Supplies) for consumption. Goods, whether or not sold, intended for consumption by the passengers and the crew on board aircraft, and goods necessary for the operation and maintenance of aircraft, including fuel and lubricants.
 - **Stores** (Supplies) to be taken away. Goods for sale to the passengers and the crew of aircraft with a view to being landed.
- **Temporary admission.** The customs procedure under which certain goods can be brought into a customs territory conditionally relieved totally or partially from payment of import duties and taxes; such goods must be imported for a specific purpose and must be intended for re-exportation within a specified period and without having undergone any change except normal depreciation due to the use made of them.
- **Through-flight.** A particular operation of aircraft, identified by the operator by the use throughout of the same symbol, from point of origin via any intermediate points to point of destination
- **Travel document.** A passport or other official document of identity issued by a State or organization, which may be used by the rightful holder for international travel.
- Unaccompanied baggage. Baggage that is transported as cargo and may or may not be carried on the same aircraft with the person to whom it belongs.
- Unclaimed baggage. Baggage that arrives at an airport and is not picked up or claimed by a passenger.
- Unidentified baggage. Baggage at an airport, with or without a baggage tag, which is not picked up by or identified with a passenger.
- *Unlading.* The removal of cargo, mail, baggage or stores from an aircraft after a landing.
- Visitor. Any person who disembarks and enters the territory of a Contracting State other than that in which that person normally resides; remains there lawfully as prescribed by that Contracting State for legitimate non-immigrant purposes, such as touring, recreation, sports, health, family reasons, religious pilgrimages, or business; and does not take up any gainful occupation during his stay in the territory visited.

B. General Principles

1.1 The Standards and Recommended Practices in this Annex shall apply to all categories of aircraft operation except where a particular provision refers specifically to only one type of operation.

1-3

- 1.2 Contracting States shall take necessary measures to ensure that:
 - a) the time required for the accomplishment of border controls in respect of persons and aircraft and for the release/clearance of goods is kept to the minimum;
 - b) minimum inconvenience is caused by the application of administrative and control requirements;
 - exchange of relevant information between Contracting States, operators and airports is fostered and promoted to the greatest extent possible; and
 - d) optimal levels of security, and compliance with the law, are attained.

- 1.3 Contracting States shall use risk management in the application of border control procedures for the release/clearance of goods.
- 1.4 Contracting States shall develop effective information technology to increase the efficiency and effectiveness of their procedures at airports.
- 1.5 Contracting States shall develop procedures for the pre-arrival lodgement of data so as to enable expeditious release/clearance.
- 1.6 The provisions of this Annex shall not preclude the application of national legislation with regard to aviation security measures or other necessary controls.

19/11/09 1-4

CHAPTER 2. ENTRY AND DEPARTURE OF AIRCRAFT

A. General

- 2.1 Contracting States shall adopt appropriate measures for the clearance of aircraft arriving from or departing to another Contracting State and shall implement them in such a manner as to prevent unnecessary delays.
- 2.2 In developing procedures aimed at the efficient clearance of entering or departing aircraft, Contracting States shall take into account the application of aviation security and narcotics control measures, where appropriate.
- 2.3 Recommended Practice.— The appropriate public authorities of Contracting States should enter into Memoranda of Understanding with the airlines providing international services to that State and with the operators of its international airports, setting out guidelines for their mutual cooperation in countering the threat posed by international trafficking in narcotics and psychotropic substances. Such Memoranda of Understanding should be patterned after the applicable models developed by the World Customs Organization for this purpose. In addition, Contracting States are encouraged to conclude Memoranda of Understanding amongst themselves.
- 2.4 Recommended Practice.— In accordance with the International Health Regulations of the World Health Organization, Contracting States should not interrupt air transport services for health reasons. In cases where, in exceptional circumstances, such service suspensions are under consideration, Contracting States should first consult with the World Health Organization and the health authorities of the State of occurrence of the disease before taking any decision as to the suspension of air transport services.

B. Documents — requirements and use

- 2.5 Contracting States shall not require any documents, other than those provided for in this Chapter, for the entry and departure of aircraft.
- 2.6 Contracting States shall not require a visa nor shall any visa or other fee be collected in connection with the use of any documentation required for the entry or departure of aircraft
- 2.7 **Recommended Practice.** Documents for entry and departure of aircraft should be accepted if furnished in Arabic, English, French, Russian or Spanish. Any Contracting State may require an oral or written translation into its own language.

- 2.8 Subject to the technological capabilities of the Contracting State, documents for the entry and departure of aircraft shall be accepted when presented:
 - a) in electronic form, transmitted to an information system of the public authorities;
 - b) in paper form, produced or transmitted electronically; or
 - c) in paper form, completed manually following the formats depicted in this Annex.
- 2.9 When a particular document is transmitted by or on behalf of the aircraft operator and received by the public authorities in electronic form, the Contracting State shall not require the presentation of the same document in paper form.
- 2.10 A Contracting State requiring a General Declaration shall limit its information requirements to the elements indicated in Appendix 1. The information shall be accepted in either electronic or paper form.
- 2.11 When a Contracting State requires the General Declaration only for the purposes of attestation, it shall adopt measures by which that attestation requirement may be satisfied by a statement added, either manually or by use of a rubber stamp containing the required text, to one page of the Cargo Manifest. Such attestation shall be signed by the authorized agent or the pilot-in-command.
- 2.12 Contracting States shall not normally require the presentation of a Passenger Manifest. On those occasions when a Passenger Manifest is required, the information requirements shall be limited to the elements indicated in Appendix 2. The information shall be accepted in either electronic or paper form.
- 2.13 When a Contracting State requires the presentation of the Cargo Manifest in paper form, it shall accept either:
 - a) the form shown in Appendix 3, completed according to the instructions; or
 - b) the form shown in Appendix 3, partially completed, with a copy of each air waybill representing the cargo on board the aircraft.

- 2.14 Contracting States shall not require the presentation of a written declaration of stores remaining on board the aircraft.
- 2.15 In respect of stores laden on or unladen from the aircraft, the information required in the Stores List shall not exceed:
 - a) the information indicated in the heading of the format of the Cargo Manifest;
 - b) the number of units of each commodity; and
 - c) the nature of each commodity.
- 2.16 Contracting States shall not require the presentation of a list of accompanied baggage or mishandled baggage laden on or unladen from the aircraft.
- 2.17 Contracting States shall not require the presentation of a written declaration of the mail other than the form(s) prescribed in the Acts in force of the Universal Postal Union.
- 2.18 Contracting States shall not require the aircraft operator to deliver to the public authorities more than three copies of any of the above-mentioned documents at the time of entry or departure of the aircraft.
- 2.19 If the aircraft is not embarking/disembarking passengers or lading/unlading cargo, stores or mail, the relevant document(s) shall not be required, provided an appropriate notation is included in the General Declaration.

C. Correction of documents

- 2.20 In the event that errors are found in any of the above-mentioned documents, the public authorities concerned shall accord the aircraft operator or authorized agent an opportunity to correct such errors or shall alternatively perform such corrections themselves.
- 2.21 The aircraft operator or his authorized agent shall not be subjected to penalties if he satisfies the public authorities concerned that any error which was found in such documents was inadvertent and made without fraudulent intent or gross negligence. When considered necessary to discourage a repetition of such errors, a penalty shall be no greater than is necessary for this purpose.

D. Disinsection of aircraft

2.22 Contracting States shall limit any routine requirement for the disinsection of aircraft cabins and flight decks with an aerosol while passengers and crews are on board, to

- same-aircraft operations originating in, or operating via, territories that they consider to pose a threat to their public health, agriculture or environment.
- 2.23 Contracting States that require disinsection of aircraft shall periodically review their requirements and modify them, as appropriate, in the light of all available evidence relating to the transmission of insects to their respective territories via aircraft.
- 2.24 When disinsection is required a Contracting State shall authorize or accept only those methods, whether chemical or non-chemical, and/or insecticides, which are recommended by the World Health Organization and are considered efficacious by the Contracting State.
- Note.— This provision does not preclude the trial and testing of other methods for ultimate approval by the World Health Organization.
- 2.25 Contracting States shall ensure that their procedures for disinsection are not injurious to the health of passengers and crew and cause the minimum of discomfort to them.
- 2.26 Contracting States shall, upon request, provide to aircraft operators appropriate information, in plain language, for air crew and passengers, explaining the pertinent national regulation, the reasons for the requirement, and the safety of properly performed aircraft disinsection.
- 2.27 When disinsection has been performed in accordance with procedures recommended by the World Health Organization, the Contracting State concerned shall accept a pertinent certification on the General Declaration as provided for in Appendix 1 or, in the case of residual disinsection, the Certificate of Residual Disinsection set forth in Appendix 4.
- 2.28 When disinsection has been properly performed pursuant to 2.24 and a certificate as indicated in 2.27 is presented or made available to the public authorities in the country of arrival, the authorities shall normally accept that certificate and permit passengers and crew to disembark immediately from the aircraft.
- 2.29 Contracting States shall ensure that any insecticide or any other substance used for disinsection does not have a deleterious effect on the structure of the aircraft or its operating equipment. Flammable chemical compounds or solutions likely to damage aircraft structure, such as by corrosion, shall not be employed.

E. Disinfection of aircraft

2.30 Contracting States shall define the types of animals and products of animal origin which, when carried by air, require that the aircraft be disinfected and shall exempt aircraft from disinfection when such animals or animal products are carried in approved containers accompanied by formal

24/11/05 2-2

Chapter 2 Annex 9 — Facilitation

certificates from health authorities. When aircraft disinfection is required, the following provisions shall apply:

- a) the application shall be limited solely to the container or to the compartment of the aircraft in which the traffic was carried;
- b) the disinfection shall be carried out expeditiously; and
- c) flammable chemical compounds or solutions likely to damage aircraft structure, such as by corrosion, or chemicals likely to damage the health of passengers, shall not be employed.

Note.— When aircraft disinfection is required for animal health reasons, only those methods and disinfectants recommended by the International Office of Epizootics should be used.

F. Arrangements concerning international general aviation and other non-scheduled flights

I. General

- 2.31 Contracting States shall publish in their respective Aeronautical Information Publications (AIPs) their requirements concerning advance notices and applications for prior authorization of general aviation and other non-scheduled flights.
- 2.32 Contracting States requiring advance notice of the intended landing of aircraft in their territory, or applications for prior authorization, shall designate a single agency to receive and coordinate the government's response to such notices or applications.
- 2.33 Contracting States shall indicate in their respective AIPs the mail address and, where available, the AFTN address, the telex number or cable address, fax number, electronic mail address, web page and telephone number of the agency designated as in 2.32.
- 2.34 In Contracting States notification to the interested border inspection agencies, e.g. customs, immigration or quarantine, of intended arrivals, departures or transit operations shall be the responsibility of the agency designated as in 2.32.

II. Prior authorization

- 2.35 Contracting States shall not require that prior authorization or notification be applied for through diplomatic channels unless the flight is diplomatic in nature.
- 2.36 Contracting States that require aircraft operators to apply for prior authorization shall:

- a) establish procedures whereby such application will be dealt with promptly;
- b) make such permission effective for a specific length of time or number of flights wherever possible; and
- c) impose no fees, dues or charges for the issue of such permission.
- 2.37 **Recommended Practice.** In the case of aircraft engaged in the carriage of passengers, cargo or mail for remuneration or hire, Contracting States should not require more than the following details in applications for prior authorization:
 - a) name of operator;
 - b) type of aircraft and registration marks;
 - c) date and time of arrival at, and departure from, the airport concerned;
 - d) place or places of embarkation or disembarkation abroad, as the case may be, of passengers and/or freight;
 - e) purpose of flight and number of passengers and/or nature and amount of freight; and
 - f) name, address and business of charterer, if any.
- 2.37.1 **Recommended Practice.** Contracting States should publish in their respective AIPs the minimum amount of time required in advance of the flight for processing the applications for prior authorizations referred to in 2.37.
- 2.38 In the case of aircraft either in transit non-stop or stopping for non-traffic purposes, any Contracting State that, for reasons of safety of flight, requires prior authorization shall not require any other information than that contained in a flight plan when application for prior authorization is made.
- Note.— Specifications for flight plans are set forth in Annex 2 Rules of the Air.
- 2.39 Contracting States that require prior authorization for flights referred to in 2.38 shall not require applications to be filed more than three working days in advance.

III. Advance notification of arrival

2.40 In the case of aircraft either in transit non-stop or stopping for non-traffic purposes, the Contracting State concerned shall not require more advance notice of such operations than is required by the air traffic control services and by interested border inspection agencies.

Note.— This provision is not intended to prevent the application of appropriate narcotics control measures.

2-3 24/11/05

2.41 Contracting States shall accept the information contained in a flight plan as adequate advance notification of arrival, provided that such information is received at least two hours in advance of arrival and that the landing occurs at a previously designated international airport.

IV. Clearance and sojourn of aircraft

2.42 **Recommended Practice.**— At international airports where there are international general aviation operations, Contracting States should arrange for an adequate level of border inspection and clearance services for those operations. Contracting States, in cooperation with aircraft operators and airport operators, should establish as a goal a total time period of 60 minutes in aggregate for the completion of all required departure/arrival formalities inclusive of aviation security measures for an aircraft requiring not more than normal processing, calculated from the time of the crew member's presenting the aircraft at the first processing point at the airport.

Note.— "Required departure/arrival formalities" to be completed during the 60 minutes should include aviation security measures and, where applicable, the collection of airport charges and other levies, and border control measures.

- 2.43 **Recommended Practice.** At international airports where international general aviation operations are infrequent, Contracting States should authorize one governmental agency to undertake, on behalf of all border inspection agencies, clearance of aircraft and their loads.
- 2.44 An aircraft that is not engaged in scheduled international air services and which is making a flight to or through any designated international airport of a Contracting State and is admitted temporarily free of duty in accordance with Article 24 of the Convention shall be allowed to remain within that State, for a period to be established by that State, without security for customs duty on the aircraft being required.

24/11/05 2-4

CHAPTER 3. ENTRY AND DEPARTURE OF PERSONS AND THEIR BAGGAGE

A. General

- 3.1 In order to facilitate and expedite the clearance of persons entering or departing by air, Contracting States shall adopt border control regulations appropriate to the air transport environment and shall apply them in such a manner as to prevent unnecessary delays.
- 3.2 In developing procedures aimed at the efficient application of border controls on passengers and crew, Contracting States shall take into account the application of aviation security, border integrity, narcotics control and immigration control measures, where appropriate.
- 3.3 Contracting States that use integrated circuit (IC) chips or other optional machine readable technologies for the representation of personal data, including biometric data, in their travel documents shall make provision whereby the encoded data may be revealed to the holder of the document upon request.
- 3.4 Contracting States shall not extend the validity of their machine readable travel documents.
- Note 1.— Specifications for machine readable travel documents (Doc 9303, Series) do not permit alteration of the expiration date and other data in the machine readable zone.
- Note 2. States whose national legislation or regulations currently allow for the extension of the period of validity should undertake to amend the appropriate text in a reasonable period.

B. Documents required for travel

- 3.5 No documents other than those provided for in this Chapter shall be required by Contracting States for the entry into and departure from their territories of visitors.
- 3.6 Contracting States shall not require visitors travelling by air, rightfully holding valid passports recognized by the receiving State and holding valid visas, where appropriate, to present any other document of identity.
- Note.— It is not the intent of the above provision to discourage Contracting States from accepting other official documents of identity for travel purposes, such as national

identity cards, seafarers' identity documents, alien resident cards and provisional alternative travel identity documents.

C. Security of travel documents

- 3.7 Contracting States shall regularly update security features in new versions of their travel documents, to guard against their misuse and to facilitate detection of cases where such documents have been unlawfully altered, replicated or issued
- 3.8 Contracting States shall establish controls on the creation and issuance of travel documents in order to safeguard against the theft of their stocks and the misappropriation of newly issued travel documents.
- 3.9 Recommended Practice.— Contracting States should incorporate biometric data in their machine readable passports, visas and other official travel documents, using one or more optional data storage technologies to supplement the machine readable zone, as specified in Doc 9303, Machine Readable Travel Documents. The required data stored on the integrated circuit chip is the same as that printed on the data page, that is, the data contained in the machine-readable zone plus the digitized photographic image. Fingerprint image(s) and/or iris image(s) are optional biometrics for Contracting States wishing to supplement the facial image with another biometric in the passport. Contracting States incorporating biometric data in their Machine Readable Passports are to store the data in a contactless integrated circuit chip complying with ISO/IEC 14443 and programmed according to the Logical Data Structure as specified by ICAO.
- 3.9.1 **Recommended Practice.** Contracting States (a) issuing or intending to issue ePassports; and/or (b) implementing at border controls automated checks on ePassports should join the ICAO Public Key Directory (PKD).

D. Travel documents

3.10 Contracting States shall begin issuing only Machine Readable Passports in accordance with the specifications of Doc 9303, Part 1, no later than 1 April 2010.

Note.—This provision does not intend to preclude the issuance of non-machine readable passports or temporary travel documents of limited validity in cases of emergency.

- 3.10.1 For passports issued after 24 November 2005 and which are not machine readable, Contracting States shall ensure the expiration date falls before 24 November 2015.
- 3.11 **Recommended Practice.** When issuing identity documents or visas accepted for travel purposes, Contracting States should issue these in machine readable form, as specified in Doc 9303 (series), Machine Readable Travel Documents.
- 3.12 When issuing passports that are not machine readable, Contracting States shall ensure that the personal identification and document issuance data and the format of the data page conform to the specifications for the "visual zone" set forth in Doc 9303, Part 1, *Machine Readable Passports*. The "machine readable zone" area shall be filled with words such as "this passport is not machine readable" or other data to preclude fraudulent insertion of machine readable characters.
- 3.13 **Recommended Practice.** Contracting States should establish publicly accessible facilities for the receipt of passport applications and/or for the issuance of passports.
- 3.14 Contracting States shall establish transparent application procedures for the issuance, renewal or replacement of passports and shall make information describing their requirements available to prospective applicants upon request.
- 3.14.1 **Recommended Practice.** If any fee is charged for the issue or renewal of a passport, the amount of such fee should not exceed the cost of the operation.
- 3.15 Contracting States shall issue a separate passport to each person, regardless of age.
- 3.16 **Recommended Practice.** When issuing passports for tourism or business travel, Contracting States should normally provide that such passports be valid for a period of at least five years, for an unlimited number of journeys and for travel to all States and territories.
- Note 1.— In consideration of the limited durability of documents and the changing appearance of the passport holder over time, a validity period of not more than ten years is recommended.
- Note 2.— Emergency, diplomatic, official and other special purpose passports could have a shorter validity period.

E. Exit visas

- 3.17 Contracting States shall not require exit visas from their own nationals wishing to tour abroad nor from visitors at the end of their stay.
- 3.18 **Recommended Practice.** Contracting States should not require exit visas from their resident aliens wishing to tour abroad.

F. Entry/re-entry visas

- 3.19 **Recommended Practice.** Contracting States should waive or abolish, for a maximum number of States, the requirement for an entry visa for nationals seeking entry as visitors.
- 3.20 Contracting States shall not require visas for re-entry from their own nationals.
- 3.21 **Recommended Practice.** Contracting States should not require visas for re-entry from their resident aliens who hold lawful permanent residence permits.
- 3.22 Contracting States shall establish simple and transparent application procedures for the issuance of entry visas for prospective visitors and shall ensure that applications for such visas are acted upon as quickly as possible after receipt.
- 3.23 **Recommended Practice.** Visa issuance procedures should not normally require the applicant to make a personal appearance at the issuing office.
- 3.24 When issuing entry visas to prospective visitors, Contracting States shall normally provide that such visas be valid for use within a period of at least six months from the date of issue regardless of the number of entries and with the understanding that the duration of each stay may be limited.
- 3.25 **Recommended Practice.**—When issuing visas that are not machine readable, Contracting States should ensure that the personal and issuance data in such documents conform to the specifications for the visual zone of the machine readable visa, as set forth in Doc 9303, Part 2 Machine Readable Visas.

G. Embarkation/Disembarkation Cards

- 3.26 **Recommended Practice.** Contracting States should not require either from visitors travelling by air, or from aircraft operators on their behalf, identification information in writing supplementary to that presented in their identity documents. Where the collection of identity information is required, Contracting States should develop systems for the electronic capture of this information from machine readable travel documents or other sources.
- 3.27 A Contracting State that requires a written record of personal data from visitors arriving or departing by air shall limit its information requirements to those set forth in Appendix 5 Embarkation/Disembarkation Card.
- 3.28 Contracting States, when requiring Embarkation/Disembarkation Cards, shall accept their completion by visitors and shall not require them to be completed or checked by the aircraft operator.

Chapter 3 Annex 9 — Facilitation

3.29 Contracting States that require the presentation of Embarkation/Disembarkation Cards shall provide them to airline operators or their travel agents, without charge, for distribution to departing passengers prior to embarkation or to arriving passengers during the flight.

H. Certificates of vaccination

3.30 In cases where evidence of protection against a quarantinable disease is required, Contracting States shall accept the International Certificate of Vaccination or Revaccination form prescribed by the World Health Organization in the International Health Regulations.

I. Inspection of travel documents

- 3.31 Contracting States shall assist aircraft operators in the evaluation of travel documents presented by passengers, in order to deter fraud and abuse.
- 3.32 **Recommended Practice.** Contracting States should consider making arrangements with other Contracting States to permit the positioning of liaison officers at airports in order to assist aircraft operators to establish the validity and authenticity of the travel documents of embarking persons.
- 3.33 Aircraft operators shall take necessary precautions at the point of embarkation to ensure that passengers are in possession of the documents prescribed by the States of transit and destination for control purposes as described in this chapter.

J. Departure procedures

- 3.34 Contracting States shall not require income-tax clearance certificates from visitors.
- 3.35 Contracting States shall not hold the aircraft operator liable in the event of the non-payment of income taxes by any passenger.
- 3.36 **Recommended Practice.** Contracting States, in cooperation with aircraft operators and airport management, should establish as a goal a total time period of 60 minutes in aggregate for the completion of required departure formalities for all passengers requiring not more than normal processing, calculated from the time of the passenger's presenting himself at the first processing point at the airport (i.e. airline check-in, security control point or other required control point depending on arrangements at the individual airport).
- Note.— "Required departure formalities" to be completed during the recommended 60 minutes would include airline check-in, aviation security measures and, where applicable,

the collection of airport charges and other levies, and outbound border control measures, e.g. passport, quarantine or customs controls.

- 3.37 **Recommended Practice.** Contracting States that require inspection by the public authorities of the travel documents of departing passengers should, in cooperation with airport management, use applicable technology and adopt a multi-channel inspection system, or other means of streaming passengers, in order to expedite such inspections.
- 3.38 Contracting States shall not normally require the presentation, for border control inspection, of baggage of passengers departing from their territory.

K. Entry procedures and responsibilities

- 3.39 **Recommended Practice.** Contracting States, with the cooperation of aircraft operators and airport operators, should establish as a goal the clearance within 45 minutes of disembarkation from the aircraft of all passengers requiring not more than the normal inspection, regardless of aircraft size and scheduled arrival time.
- 3.40 In order to expedite inspections, Contracting States, with the cooperation of airport operators, shall use applicable technology and adopt a multi-channel immigration inspection system, or other means of streaming passengers, at international airports where the volume of passenger traffic justifies such measures.
- 3.41 Except in special circumstances, Contracting States shall not require that travel documents or other identity documents be collected from passengers or crew before they arrive at the passport control points.
- 3.42 The public authorities concerned shall expeditiously accept passengers and crew for examination as to their admissibility into the State.
- Note.— A passenger or crew member is "accepted for examination" when he makes his first appearance at the arrivals control point after disembarkation, to seek entry into the country concerned, at which time the control officer makes a determination whether he should be admitted or not. This does not include the sighting of travel documents, which may be carried out immediately upon disembarkation.
- 3.43 The aircraft operator shall be responsible for the custody and care of disembarking passengers and crew members from the time they leave the aircraft until they are accepted for examination as provided in 3.42.
- 3.44 **Recommended Practice.** After such acceptance, the public authorities concerned should be responsible for the custody and care of passengers and crew members until they are admitted or found inadmissible.

3-3 19/11/09 No. 21

- 3.45 The responsibility of an aircraft operator for custody and care of passengers and crew members shall terminate from the moment such persons have been admitted into that State.
- 3.46 The public authorities of each Contracting State shall seize fraudulent, falsified or counterfeit travel documents. The public authorities shall also seize the travel documents of a person impersonating the rightful holder of the travel document. Such documents shall be removed from circulation immediately and returned to the appropriate authorities of the State named as issuer or to the resident Diplomatic Mission of that State.
- 3.47 **Recommended Practice.** Where appropriate, Contracting States should introduce a system of advance passenger information which involves the capture of certain passport or visa details prior to departure, the transmission of the details by electronic means to their public authorities, and the analysis of such data for risk management purposes prior to arrival in order to expedite clearance. To minimize handling time during check-in, document reading devices should be used to capture the information in machine readable travel documents.
- 3.47.1 When specifying the identifying information on passengers to be transmitted, Contracting States shall require only data elements that are available in machine readable form in travel documents conforming to the specifications contained in Doc 9303 (series), *Machine Readable Travel Documents*. All information required shall conform to specifications for UN/EDIFACT PAXLST messages found in the WCO/IATA/ICAO API Guidelines.
- 3.47.2 When seeking to implement a national Advance Passenger Information (API) programme, Contracting States that are unable to comply fully with the provisions contained in 3.47.1 with respect to data element requirements shall ensure that only those data elements that have been defined for incorporation into the UN/EDIFACT PAXLST message are included in the national programme's requirement or follow the WCO's Data Maintenance Request (DMR) process for any deviation from the standard.
- 3.47.3 **Recommended Practice.**—When implementing a new Advance Passenger Information (API) programme, Contracting States that are unable to accept passenger data transmitted in accordance with the UN/EDIFACT PAXLST specifications using the industry standard transmission method as described in 3.47.1 should consult users on the operational and cost impact incurred in modifying the UN/EDIFACT PAXLST message and its contents to the required alternate format.
- 3.47.4 **Recommended Practice.** Contracting States should seek to minimize the number of times API data is transmitted for a specific flight.
- 3.47.5 If a Contracting State requires API data interchange, then it shall seek, to the greatest extent possible, to

limit the operational and administrative burdens on aircraft operators, while enhancing passenger facilitation.

- 3.47.6 **Recommended Practice.** Contracting States should refrain from imposing fines and penalties on aircraft operators for any errors caused by a systems failure which may have resulted in the transmission of no, or corrupted, data to the public authorities in accordance with API systems.
- 3.47.7 Contracting States requiring that passenger data be transmitted electronically through an Advance Passenger Information system shall not also require a passenger manifest in paper form.
- 3.48 **Recommended Practice.** Contracting States requiring Passenger Name Record (PNR) access should conform their data requirements and their handling of such data to guidelines developed by ICAO.
- 3.49 Except in special circumstances, Contracting States shall make arrangements whereby the identity documents of visitors need to be inspected only once at times of entry and departure.
- 3.50 Contracting States shall not require a written declaration of baggage from passengers and crew, when no dutiable or restricted goods are being carried.
- 3.51 Contracting States shall adopt the dual-channel system or other selective process for customs and quarantine inspection based on risk management, as appropriate to the conditions and traffic volumes at the airport concerned.
- Note.— See Appendix 6, Recommendation of the Customs Co-operation Council (now the World Customs Organization) for a simplified customs control based on the dual-channel system.
- 3.52 **Recommended Practice.** In exceptional circumstances, when a visitor, for reasons of force majeure, does not possess the required entry visa prior to arrival, Contracting States should authorize temporary entry.
- 3.53 **Recommended Practice.** In cases in which the passport of a visitor has expired prior to the end of the validity period of a visa, the State that has issued the visa should continue to accept the visa until its expiration date when it is presented with the visitor's new passport.
- 3.54 Contracting States that issue visas for a limited number of entries shall indicate in an appropriate, clear and non-derogatory way, every instance the visa is used, in order that its holder, any aircraft operator or the public authorities of a State may determine its validity quickly and without the use of any special means.
- 3.55 After individual presentation by passengers and crew of their passports or other official travel documents, the public officials concerned shall, except in special individual cases, hand back such documents immediately after examination.

Chapter 3 Annex 9 — Facilitation

- 3.56 **Recommended Practice.** Medical examination of persons arriving by air should normally be limited to those disembarking and coming within the incubation period of the disease concerned, as stated in the International Health Regulations, from an infected area.
- 3.57 **Recommended Practice.** Contracting States should make arrangements whereby a passenger and his baggage, arriving on an international flight making two or more stops at international airports within the territory of the same State, are not required to be cleared through border control formalities at more than one airport of the State concerned.

L. Transit procedures and requirements

- 3.58 Where airport facilities permit, Contracting States shall make provision by means of direct transit areas or other arrangements, whereby crew, passengers and their baggage, arriving from another State and continuing their journey to a third State on the same flight or another flight from the same airport on the same day may remain temporarily within the airport of arrival without undergoing border control formalities to enter the State of transit.
- 3.59 Contracting States shall keep to a minimum the number of States whose nationals are required to have direct transit visas when arriving on an international flight and continuing their journey to a third State on the same flight or another flight from the same airport on the same day.
- 3.60 Contracting States shall establish measures whereby in-transit passengers who are unexpectedly delayed overnight due to a flight cancellation or delay may be allowed to leave the airport for the purpose of taking accommodations.

M. Disposition of baggage separated from its owner

- 3.61 Contracting States shall permit aircraft operators to forward mishandled baggage to the location of its owner and shall not hold aircraft operators liable for penalties, fines, import duties and taxes, on the basis that the baggage was mishandled.
- 3.62 Contracting States shall permit the direct transfer of mishandled baggage between international flights at the same airport, without examination, except for reasons of aviation security or other necessary controls. In cases when direct transfer cannot be effected, Contracting States shall ensure that arrangements are made for the temporary custody of such baggage under secure supervision at an appropriate location.
- 3.63 Contracting States shall permit aircraft operators to present unidentified, unclaimed or mishandled baggage for clearance at an appropriate destination on behalf of its owners, and to deliver such baggage to its owners.

- 3.64 Contracting States shall expedite the clearance of unidentified, unclaimed or mishandled baggage, and its return to the aircraft operator for appropriate disposition. Under the conditions laid down by the public authorities, aircraft operators may be permitted to open such baggage if necessary to ascertain its owner.
- 3.65 The aircraft operator shall be freed from the obligation to safeguard baggage not yet cleared by the public authorities, and from liability for import duties and taxes chargeable on such baggage, when it is taken into charge by customs and is under their sole control.

N. Identification and entry of crew and other aircraft operators' personnel

- 3.66 Contracting States shall establish measures, with the cooperation of aircraft operators and airport operators, to expedite the inspection of crew members and their baggage, as required at departure and upon arrival.
- 3.67 Contracting States shall facilitate and expedite the process under which aircraft operators based in their territories can apply for Crew Member Certificates (CMCs) for their crew members.
- Note.— The CMC was developed as a card for use for identification purposes by crew members, leaving the crew licences to serve their primary purpose of attesting to the professional qualifications of the flight crew members.
- 3.68 If Contracting States issue Crew Member Certificates, then these shall be issued only in the form of machine readable cards in accordance with the specifications of Doc 9303, Part 3.
- 3.68.1 **Recommended Practice.** Contracting States should put in place procedures which will enable any crew member issued with a Crew Member Certificate to examine and review the validity of the data held, and to provide for correction if necessary, at no cost to the crew member.
- 3.69 **Recommended Practice.** To the extent that aircraft operators issue crew identity cards, Contracting States should require the production of such identity documents in the format shown in Appendix 7, i.e. in the same layout as the visual zone of the machine readable crew member certificate and having the capability to support machine assisted identity confirmation and document security verification.
- 3.69.1 **Recommended Practice.** Contracting States should ensure that a record of each crew member's certificates and other official identity document issued, suspended or withdrawn, is stored in an electronic database, secure from interference and unauthorized access. All information stored in the electronic database and crew member certificate should be restricted to details which are essential for the purpose of verifying a crew member's identity.

3-5 19/11/09

- 3.70 CMCs shall be issued only after a background check has been carried out by or on behalf of the relevant public authority. In addition, adequate controls such as a certification of employment status of an applicant prior to issuance, controls on blank card stock, and accountability requirements for issuing personnel, shall be placed on the issuance of CMCs.
- 3.71 Contracting States shall accept CMCs, issued according to the requirements of Standard 3.68, for visa-free entrance of crew members when arriving in a duty status on an international flight and seeking temporary entry for the period allowed by the receiving State.
- 3.71.1 **Recommended Practice.** Contracting States should waive the visa requirement for crew members when arriving in a duty status on an international flight and seeking temporary entry for the period allowed by the receiving State.
- 3.71.2 **Recommended Practice.** Contracting States should waive the visa requirement for arriving crew members presenting CMCs, when arriving on another aircraft operator or another mode of transport and seeking temporary entry for the period allowed by the receiving State in order to join their assigned flight in a duty status.
- 3.72 Contracting States shall establish measures to provide for the temporary entry without delay into their territories, of technical personnel of foreign aircraft operators operating to or through such territories who are urgently required for the purpose of converting to an airworthy condition any

aircraft which is, for technical reasons, unable to continue its journey. Should a State require a guarantee of such persons' subsistence in, and/or return from, such State, this shall be negotiated without delaying their admission.

O. Aviation safety inspectors

- 3.73 **Recommended Practice.** Contracting States should provide that aviation safety inspectors of another Contracting State, when engaged on inspection duties, be treated in the same manner as crew members when proceeding through departure or arrival formalities.
- 3.74 **Recommended Practice.** Contracting States should provide their aviation safety inspectors with an identity document in the format set forth in Appendix 8.
- 3.75 **Recommended Practice.** Aviation safety inspectors should carry the identity document specified in 3.74, a copy of the inspector's itinerary issued by the State that employs the inspector, and a valid passport.
- 3.76 **Recommended Practice.** Contracting States should extend the privileges of temporary admission, as described in 3.71 for crew members, to aviation safety inspectors of another Contracting State, provided that they carry the documents listed in 3.75 (e.g. identity document, itinerary and valid passport), and depart after a normal period of rest.

19/11/09 3-6

CHAPTER 4. ENTRY AND DEPARTURE OF CARGO AND OTHER ARTICLES

A. General

- 4.1 In order to facilitate and expedite the release and clearance of goods carried by air, Contracting States shall adopt regulations and procedures appropriate to air cargo operations and shall apply them in such a manner as to prevent unnecessary delays.
- 4.2 **Recommended Practice.** With respect to cargo moving by both air and surface transport under an air waybill, Contracting States should apply the same regulations and procedures and in the same manner as they are applied to cargo moving solely by air.
- 4.3 When introducing or amending regulations and procedures for the release and clearance of goods carried by air, Contracting States shall consult with aircraft operators and other parties concerned, with the aim of accomplishing the actions set forth in 4.1.
- 4.4 Where the nature of a consignment could attract the attention of different public authorities, e.g. the customs, veterinary or sanitary controllers, Contracting States shall endeavour to delegate authority for release/clearance to customs or one of the other agencies or, where that is not feasible, take all necessary steps to ensure that clearance is coordinated and, if possible, carried out simultaneously and with a minimum of delay.
- 4.5 Contracting States shall not normally require the physical examination of cargo to be imported or exported and shall use risk management to determine which goods shall be examined and the extent of that examination.
- 4.6 Where practicable, in order to improve efficiency, modern screening or examination techniques shall be used to facilitate the physical examination of goods to be imported or exported.
- 4.7 **Recommended Practice.** In connection with international airports, Contracting States should establish and either develop and operate themselves, or permit other parties to develop and operate, free zones and/or customs warehouses and should publish detailed regulations as to the types of operations which may or may not be performed therein.
- 4.8 In all cases where free-zone facilities and/or customs warehouses are not provided in connection with an international airport but have been provided elsewhere in the same

general vicinity, Contracting States shall make arrangements so that air transport can utilize these facilities on the same basis as other means of transport.

B. Information required by the public authorities

- 4.9 Contracting States shall limit their data requirements to only those particulars which are deemed necessary by the public authorities to release or clear imported goods or goods intended for exportation.
- 4.10 Contracting States shall provide for the collection of statistical data at such times and under such arrangements so that the release of imported goods or those intended for exportation is not delayed thereby.
- 4.11 Subject to the technological capabilities of the Contracting State, documents for the importation or exportation of goods, including the Cargo Manifest and/or air waybills, shall be accepted when presented in electronic form transmitted to an information system of the public authorities.
- 4.12 The production and presentation of the Cargo Manifest and the air waybill(s) shall be the responsibility of the aircraft operator or his authorized agent. The production and presentation of the other documents required for the clearance of the goods shall be the responsibility of the declarant.
- 4.13 Where a Contracting State has requirements for documents such as commercial invoices, declaration forms, import licences and the like, it shall not make it the obligation of the aircraft operator to ensure that these documentary requirements are met nor shall the operator be held responsible, fined or penalized for inaccuracies or omissions of facts shown on such documents unless he is the declarant himself or is acting on his behalf.
- 4.14 When documents for the importation or exportation of goods are presented in paper form, the format shall be based on the UN layout key, as regards the goods declaration, and on the format of Appendix 3, as regards the Cargo Manifest. When such documents are submitted in electronic form, the format shall be based on international standards for the exchange of electronic information.
- 4.15 To facilitate electronic data interchange, Contracting States shall encourage all parties concerned, whether public or private, to implement compatible systems and to use the appropriate internationally accepted standards and protocols.

- 4.16 **Recommended Practice.** Electronic information systems for the release and clearance of goods should cover their transfer between air and other modes of transport.
- 4.17 Contracting States that require supporting documents, such as licenses and certificates, for the importation or exportation of certain goods shall publish their requirements and establish convenient procedures for requesting the issue or renewal of such documents.
- 4.18 **Recommended Practice.** Contracting States should, to the greatest extent possible, remove any requirement to manually produce supporting documents and should establish procedures whereby they can be produced by electronic means.
- 4.19 Contracting States shall not require consular formalities or consular charges or fees in connection with documents required for the release or clearance of goods.

C. Release and clearance of export cargo

- 4.20 Contracting States that require documents for export clearance shall normally limit their requirement to a simplified export declaration.
- 4.21 Contracting States shall provide for export cargo to be released up to the time of departure of an aircraft.
- 4.22 Contracting States shall allow goods to be exported, to be presented for clearance at any customs office designated for that purpose. Transfer from that office to the airport from which the goods are to be exported shall be carried out under the procedures laid down in the laws and regulations of the Contracting State concerned. Such procedures shall be as simple as possible.
- 4.23 Contracting States shall not require evidence of the arrival of exported goods as a matter of course.
- 4.24 **Recommended Practice.** When the public authorities of a Contracting State require goods to be examined, but those goods have already been loaded on a departing aircraft, the aircraft operator or, where appropriate, the operator's authorized agent, should normally be permitted to provide security to the customs for the return of the goods rather than delay the departure of the aircraft.

D. Release and clearance of import cargo

4.25 When scheduling examinations, priority shall be given to the examination of live animals and perishable goods and to other goods which the public authorities accept are urgently required.

4.26 Consignments declared as personal effects and transported as unaccompanied baggage shall be cleared under simplified arrangements.

- 4.27 Contracting States shall provide for the release or clearance of goods under simplified customs procedures provided that:
 - a) the goods are valued at less than a maximum value below which no import duties and taxes will be collected; or
 - b) the goods attract import duties and taxes that fall below the amount that the State has established as the minimum for collection; or
 - c) the goods are valued at less than specified value limits below which goods may be released or cleared immediately on the basis of a simple declaration and payment of, or the giving of security to the customs for, any applicable import duties and taxes; or
 - d) the goods are imported by an authorized person and are goods of a specified type.
- 4.28 **Recommended Practice.** For authorized importers who meet specified criteria, including an appropriate record of compliance with official requirements and a satisfactory system for managing their commercial records, Contracting States should establish special procedures, based on the advance supply of information, which provide for the immediate release of goods on arrival.
- 4.29 **Recommended Practice.** Goods not afforded the simplified or special procedures referred to in provisions 4.25 to 4.28 should be released or cleared promptly on arrival, subject to compliance with customs and other requirements. Contracting States should establish as a goal the release of all goods that do not need any examination, within three hours of their arrival and the submission of the correct documentation. Public authorities, and aircraft operators and importers or their authorized agents, should coordinate their respective functions to ensure that this goal is met.
- 4.30 **Recommended Practice.** Contracting States should process requests for the release of part consignments when all information has been submitted and other requirements for such part consignments have been met.
- 4.31 Contracting States shall allow goods that have been unladen from an aircraft at an international airport to be transferred to any designated customs office in the State concerned for clearance. The customs procedures covering such transfer shall be as simple as possible.
- 4.32 When, because of error, emergency or inaccessibility upon arrival, goods are not unladen at their intended destination, Contracting States shall not impose penalties, fines or other similar charges provided:

24/11/05 4-2

Chapter 4 Annex 9 — Facilitation

- a) the aircraft operator or his authorized agent notifies the customs of this fact, within any time limit laid down;
- b) a valid reason, acceptable to the customs authorities, is given for the failure to unload the goods; and
- c) the Cargo Manifest is duly amended.
- 4.33 When, because of error or handling problems, goods are unladen at an international airport without being listed on the Cargo Manifest, Contracting States shall not impose penalties, fines or other similar charges provided:
 - a) the aircraft operator or his authorized agent notifies the customs of this fact, within any time limit laid down;
 - b) a valid reason, acceptable to the customs, is given for the non-reporting of the goods;
 - c) the manifest is duly amended; and
 - d) the goods are placed under the appropriate customs arrangements.

Where applicable, the Contracting State shall, subject to compliance with its requirements, facilitate the forwarding of the goods to their correct destination.

- 4.34 If goods are consigned to a destination in a Contracting State, but have not been released for home use in that State and subsequently are required to be returned to the point of origin or to be redirected to another destination, the Contracting State shall allow the goods to be re-forwarded without requiring import, export or transit licences if no contravention of the laws and regulations in force is involved.
- 4.35 A Contracting State shall absolve the aircraft operator or, where appropriate, his authorized agent, from liability for import duties and taxes when the goods are placed in the custody of the public authorities or, with the latter's agreement, transferred into the possession of a third party who has furnished adequate security to the customs.

E. Spare parts, equipment, stores and other material imported or exported by aircraft operators in connection with international services

- 4.36 Stores and commissary supplies imported into the territory of a Contracting State for use on board aircraft in international service shall be relieved from import duties and taxes, subject to compliance with the customs regulations of the State.
- 4.37 **Recommended Practice.** Contracting States should not require supporting documentation (such as

certificates of origin or consular or specialized invoices) in connection with the importation of stores and commissary supplies.

- 4.38 **Recommended Practice.** Contracting States should permit, on board aircraft, the sale or use of commissary supplies and stores for consumption without payment of import duties and other taxes in the case where aircraft, engaged in international flights:
 - a) stop at two or more international airports within the territory of a Contracting State without intermediate landing in the territory of another State; and
 - b) do not embark any domestic passengers.
- 4.39 **Recommended Practice.** Subject to compliance with its regulations and requirements, a Contracting State should allow relief from import duties and taxes in respect of ground and security equipment and their component parts, instructional material and training aids imported into its territory, by or on behalf of an aircraft operator of another Contracting State for use by the operator or his authorized agent, within the boundaries of an international airport or at an approved off-airport facility.
- 4.40 Contracting States shall grant prompt release or clearance, upon completion of simplified documentary procedures by the aircraft operator or his authorized agent, of aircraft equipment and spare parts that are granted relief from import duties, taxes and other charges under Article 24 of the Chicago Convention.
- 4.41 Contracting States shall grant prompt release or clearance, upon completion of simplified documentary procedures by the aircraft operator or his authorized agent, of ground and security equipment and their replacement parts, instructional material and training aids imported or exported by an aircraft operator of another Contracting State.
- 4.42 Contracting States shall allow the loan, between aircraft operators of other Contracting States or their authorized agents, of aircraft equipment, spare parts and ground and security equipment and their replacement parts, which have been imported with conditional relief from import duties and taxes.
- 4.43 **Recommended Practice.** Contracting States should provide for the importation, free of import duties and taxes, of aircraft operators' documents as defined in Chapter 1 of this Annex, to be used in connection with international air services.

F. Containers and pallets

4.44 Subject to compliance with their regulations and requirements, Contracting States shall grant the aircraft operators of other Contracting States temporary admission of

4-3 24/11/05

containers and pallets — whether or not owned by the aircraft operator of the aircraft on which they arrive — provided they are to be used on an outbound international service or otherwise re-exported.

- 4.45 **Recommended Practice.** Contracting States should require a temporary admission document for containers and pallets only when they consider it essential for the purposes of customs control.
- 4.46 **Recommended Practice.** Where proof of the re-exportation of containers and pallets is required, the Contracting State should accept the appropriate usage records of the aircraft operator or his authorized agent as evidence thereof.
- 4.47 Contracting States shall make arrangements to allow aircraft operators, under supervision of the public authorities concerned, to unload transit cargo arriving in containers and pallets, so that they may sort and reassemble shipments for onward carriage without having to undergo clearance for home use.
- 4.48 Containers and pallets imported into a Contracting State under the provisions of 4.44 shall be allowed to leave the boundaries of the international airport for the release or clearance of imported loads, or for export lading, under simplified documentation and control arrangements.
- 4.49 Where circumstances so require, Contracting States shall allow the storage of temporarily admitted containers and pallets at off-airport locations.
- 4.50 Contracting States shall allow the loan between aircraft operators of containers and pallets admitted under the provisions of 4.44 without payment of import duties and taxes, provided they are to be used only on an outbound international service or otherwise re-exported.
- 4.51 Contracting States shall allow temporarily admitted containers and pallets to be re-exported through any designated customs office.

4.52 Contracting States shall allow the temporary admission of replacement parts when they are needed for the repair of containers and pallets imported under the provisions of 4.44.

G. Mail documents and procedures

4.53 Contracting States shall carry out the handling, forwarding and clearance of mail and shall comply with the documentary procedures as prescribed by the Acts in force of the Universal Postal Union.

H. Radioactive material

- 4.54 A Contracting State shall facilitate the prompt release of radioactive material being imported by air, particularly material used in medical applications, provided that applicable laws and regulations governing the importation of such material are complied with.
- Note.— The advance notification, either in paper form or electronically, of the transport of radioactive materials would likely facilitate the entry of such material at the State of destination.
- 4.55 **Recommended Practice.** A Contracting State should avoid imposing customs or other entry/exit regulations or restrictions supplementary to the provisions of Doc 9284, Technical Instructions for the Safe Transport of Dangerous Goods by Air.
- 4.56 Where a Contracting State adopts customs or other entry/exit regulations or restrictions that differ from those specified in Doc 9284, *Technical Instructions for the Safe Transport of Dangerous Goods by Air*, it shall notify ICAO promptly of such State variations for publication in the Technical Instructions, in accordance with Chapter 2, 2.5 of Annex 18.

19/11/09 4-4

CHAPTER 5. INADMISSIBLE PERSONS AND DEPORTEES

A. General

- 5.1 In order to minimize disruptions to the orderly operations of international civil aviation, Contracting States shall cooperate with one another to promptly resolve any differences arising in the course of implementing the provisions of this Chapter.
- 5.2 Contracting States shall facilitate the transit of persons being removed from another State pursuant to the provisions of this Chapter, and extend necessary cooperation to the aircraft operator(s) and escort(s) carrying out such removal.
- 5.2.1 During the period when an inadmissible passenger or a person to be deported is under their custody, the state Officers concerned shall preserve the dignity of such persons and take no action likely to infringe such dignity.
- Note.— These persons should be treated in accordance with the relevant international provisions, including the UN International Covenant on Civil and Political Rights.

B. Inadmissible persons

- 5.3 Contracting States shall without delay notify the aircraft operator, confirming this as soon as possible in writing, when a person is found inadmissible, pursuant to 3.44.
- Note.— Written notification can be either in paper form or in electronic form, such as e-mail.
- 5.4 **Recommended Practice.** Contracting States, through their public authorities should consult the aircraft operator on the time-frame for removal of the person found inadmissible, in order to allow the aircraft operator a reasonable amount of time during which to effect the person's removal via its own services or to make alternative removal arrangements.
- Note.— Nothing in this provision is to be construed so as to allow the return of a person seeking asylum in the territory of a Contracting State, to a country where his life or freedom would be threatened on account of his race, religion, nationality, membership in a particular social group or political opinion.
- 5.5 Contracting States shall ensure that a removal order is issued to the aircraft operator in respect of a person found inadmissible. The removal order shall include, if known, the name, age, gender and citizenship of the person in question.

- 5.6 Contracting States ordering the removal of an inadmissible person who has lost or destroyed his travel documents shall deliver a covering letter in the format set forth in Appendix 9 (1) in order to give information to the authorities of the State(s) of transit and/or the commencement of journey. The covering letter, the removal order and any relevant information shall be handed over to the aircraft operator or, in the case of escorted persons, the escort, who shall be responsible for delivering them to the public authorities at the State of destination.
- 5.7 Contracting States ordering the removal of an inadmissible person whose travel documents have been seized pursuant to 3.46 shall deliver a covering letter in the format set forth in Appendix 9 (2) in order to give information to the authorities of the State(s) of transit and/or the commencement of journey. The covering letter together with a photocopy of the seized travel documents and the removal order shall be handed over to the aircraft operator or, in the case of escorted persons, the escort, who shall be responsible for delivering them to the public authorities at the State of destination.
- 5.8 Contracting States that have reason to believe that an inadmissible person might offer resistance to his removal shall inform the aircraft operator concerned as far in advance as possible of scheduled departure so that the aircraft operator can take precautions to ensure the security of the flight.
- 5.9 The aircraft operator shall be responsible for the cost of custody and care of an improperly documented person from the moment that person is found inadmissible and returned to the aircraft operator for removal from the State.
- 5.9.1 The State shall be responsible for the cost of custody and care of all other categories of inadmissible persons, including persons not admitted due to document problems beyond the expertise of the aircraft operator or for reasons other than improper documents, from the moment these persons are found inadmissible until they are returned to the aircraft operator for removal from the State.
- 5.10 When a person is found inadmissible and is returned to the aircraft operator for transport away from the territory of the State, the aircraft operator shall not be precluded from recovering from such person any transportation costs involved in his removal.

- 5.11 The aircraft operator shall remove the inadmissible person to:
 - a) the point where he commenced his journey; or
 - b) to any place where he is admissible.
- 5.11.1 **Recommended Practice.** Where appropriate, Contracting States should consult with the aircraft operator regarding the most practicable place to which the inadmissible person is to be removed.
- 5.12 A Contracting State shall accept for examination a person removed from a State where he was found inadmissible, if this person commenced his journey from its territory. A Contracting State shall not return such a person to the country where he was earlier found inadmissible.
- 5.13 Contracting States shall accept the covering letter and other papers delivered pursuant to 5.6 or 5.7 as sufficient documentation to carry out the examination of the person referred to in the letter.
- 5.14 Contracting States shall not fine aircraft operators in the event that arriving and in-transit persons are found to be improperly documented where aircraft operators can demonstrate that they have taken adequate precautions to ensure that these persons had complied with the documentary requirements for entry into the receiving State.
- 5.15 **Recommended Practice.**—When aircraft operators have cooperated with the public authorities to the satisfaction of those authorities, for example pursuant to memoranda of understanding reached between the parties concerned, in measures designed to prevent the transportation of inadmissible persons, Contracting States should mitigate the fines and penalties that might otherwise be applicable should such persons be carried to their territory.
- 5.16 Contracting States shall not prevent the departure of an operator's aircraft pending a determination of admissibility of any of its arriving passengers.

Note.— An exception to this provision could be made in the case of infrequent flights or if the Contracting State had reason to believe that there might be an irregularly high number of inadmissible persons on a specific flight.

C. Deportees

- 5.17 A Contracting State deporting a person from its territory shall serve him a deportation order. Contracting States shall indicate to the deportee the name of the destination State.
- 5.18 Contracting States removing deportees from their territories shall assume all obligations, responsibilities and costs associated with the removal.

- 5.19 Contracting States, when making arrangements with an aircraft operator for the removal of a deportee, shall make available the following information as soon as possible, but in any case not later than 24 hours before the scheduled time of departure of the flight:
 - a) a copy of the deportation order, if legislation of the Contracting State allows for it;
 - b) a risk assessment by the State and/or any other pertinent information that would help the aircraft operator assess the risk to the security of the flight; and
 - c) the names and nationalities of any escorts.

Note.— In order to ensure coordination of facilitation and security standards, attention is drawn to the applicable provisions of Annex 17, Chapter 4.

- 5.20 Contracting States, in making arrangements for the removal of a deportee to a destination State, shall use direct non-stop flights whenever practicable.
- 5.21 A Contracting State, when presenting a deportee for removal, shall ensure that all official travel documentation required by any transit and/or destination State is provided to the aircraft operator.
- 5.22 A Contracting State shall admit into its territory its nationals who have been deported from another State.
- 5.23 A Contracting State shall give special consideration to the admission of a person, deported from another State, who holds evidence of valid and authorized residence within its territory.
- 5.24 Contracting States, when determining that a deportee must be escorted and the itinerary involves a transit stop in an intermediate State, shall ensure that the escort(s) remain(s) with the deportee to his final destination, unless suitable alternative arrangements are agreed, in advance of arrival, by the authorities and the aircraft operator involved at the transit location.

D. Procurement of a replacement travel document

5.25 When a replacement travel document must be obtained in order to facilitate removal and acceptance of an inadmissible person at his destination, the State ordering the removal shall provide as much assistance as practicable in obtaining that document.

Note.— In order to clarify application of this Standard, attention is drawn to Standard 5.13.

Chapter 5 Annex 9 — Facilitation

- 5.26 A Contracting State shall, when requested to provide travel documents to facilitate the return of one of its nationals, respond within a reasonable period of time and not more than 30 days after such a request was made either by issuing a travel document or by satisfying the requesting State that the person concerned is not one of its nationals.
- 5.27 A Contracting State shall not make the signing by the person concerned of an application for a travel document a prerequisite for the issuance of that document.
- 5.28 When a Contracting State has determined that a person for whom a travel document has been requested is one of its nationals but cannot issue a passport within 30 days of the request, the State shall issue an emergency travel document that attests to the nationality of the person concerned and that is valid for readmission to that State.
- 5.29 A Contracting State shall not refuse to issue a travel document to or otherwise thwart the return of one of its nationals by rendering that person stateless.

5-3

No. 21

CHAPTER 6. INTERNATIONAL AIRPORTS — FACILITIES AND SERVICES FOR TRAFFIC

A. General

- 6.1 Each Contracting State shall ensure that the provisions of Annex 9 continue to be implemented in the event an airport becomes privatized.
- 6.1.1 **Recommended Practice.** Each Contracting State should, in consultation with airport operators, ensure that the design, development and maintenance of facilities at international airports provide efficient and effective flow arrangements.
- 6.1.2 Each Contracting State shall ensure that airport and aircraft operators provide for the expeditious processing of passengers, crew, baggage, cargo and mail.
- 6.1.3 Each Contracting State shall ensure that efficient customs, immigration, quarantine and health border clearance services, as required, are provided at international airports.
- 6.1.4 Each Contracting State, in consultation with airport operators, shall ensure that facilities and services provided at international airports are, where possible, flexible and capable of expansion to meet traffic growth, an increase in security requirements arising from increased threat, or other changes to support border integrity measures.
- Note.— With respect to aviation security requirements, attention is drawn to the relevant specification in Annex 17, Chapter 2.*
- 6.2 Each Contracting State shall require that, in the planning of new facilities or major modifications to existing facilities, including cargo facilities, at international airports, the entity or entities responsible for such planning consult with public authorities, aircraft operators and appropriate bodies representing airport users, at the earliest stages of planning, as required.
- * The specification reads as follows:

Recommendation.— Each Contracting State should whenever possible arrange for the security controls and procedures to cause a minimum of interference with, or delay to the activities of, civil aviation provided the effectiveness of these controls and procedures is not compromised.

- 6.3 **Recommended Practice.** Aircraft operators should inform airport operators and relevant government agencies, in commercial confidence, of their service, schedule and fleet plans at the airport, to enable rational planning of facilities and services in relation to the traffic anticipated.
- 6.4 **Recommended Practice.** Each Contracting State should ensure that where a passenger service charge, airport tax or other similar fee is levied at an international airport, direct collection from passengers is avoided wherever possible.
- 6.5 **Recommended Practice.** Each Contracting State should, subject to relevant regulations and within the limitations established by the airport operator due to constraints caused by limited space or capacity, permit aircraft operators to choose how, and by whom, their ground handling operations should be carried out.

B. Airport traffic flow arrangements

I. Common provisions

- 6.6 Each Contracting State shall ensure that airport operators provide adequate facilities to permit embarkation and disembarkation of passengers without delay.
- 6.7 **Recommended Practice.** Airport operators, aircraft operators and public authorities should exchange, in a timely manner, all relevant operational information, in order to provide for a smooth and expeditious passenger flow and efficient resource allocation.
- 6.8 **Recommended Practice.** Contracting States, airport and aircraft operators, where appropriate and after consultation, should implement automated facilities for passenger and baggage processing.
- 6.9 **Recommended Practice.** Each Contracting State should ensure that signage used at airports is based on Doc 9636, International Signs to Provide Guidance to Persons at Airports and Marine Terminals, published jointly by ICAO and the International Maritime Organization.
- 6.9.1 **Recommended Practice.** Each Contracting State, in consultation with airport and aircraft operators, should notify travellers, via signage, leaflets, video, audio, Internet

websites or other media, of the penalties for breaching regulations with regard to entry and departure and attempting to import or export any banned or restricted item.

- 6.10 **Recommended Practice.** Each Contracting State should ensure that airport operators or terminal building operators install mechanical people-moving devices, when walking distances and the traffic volume within and across terminal buildings so warrant.
- 6.11 **Recommended Practice.** Each Contracting State should ensure that an airport or aircraft operator, as appropriate, installs flight information systems capable of providing accurate, adequate and up-to-the-minute information on departures, arrivals, cancellations, delays, and terminal/gate allocations.
- 6.12 **Recommended Practice.** Each Contracting State should ensure that an airport operator or aircraft operator, as appropriate, maintains a flight information system, and follows the standard layout recommended in Doc 9249, Dynamic Flight-Related Public Information Displays.
- 6.13 **Recommended Practice.** Each Contracting State should encourage the airport operators or the service provider, as appropriate, to provide car parking facilities for long- and short-term usage by passengers, visitors, crew and staff at international airports.
 - II. Aircraft parking and servicing arrangements
- 6.14 **Recommended Practice.** Each Contracting State should ensure that convenient parking and servicing facilities for aircraft are available, in order to expedite clearance and operations on the apron and to reduce aircraft ground stop time.
 - III. Outbound passengers, crew and baggage
- 6.15 **Recommended Practice.** Each Contracting State should ensure that adequate transportation is provided, by the appropriate service provider, between airport terminal buildings during the hours of airport operation.
- 6.16 **Recommended Practice.** Each Contracting State should allow airport and aircraft operators to provide offairport check-in facilities, so long as all necessary security measures and other control requirements are met.
- 6.17 **Recommended Practice.** Each Contracting State should ensure that security and/or border control personnel use efficient screening and examination techniques in examinations of passengers and their baggage, in order to facilitate aircraft departure.
- Note.— Privacy for the passenger should be assured during any physical searches required. Private rooms are

preferable; however portable screens may be used. Physical searches should be conducted by an officer of the same sex as the passenger.

- 6.18 **Recommended Practice.** Crew-member check-in and operations facilities should be readily accessible and within close proximity of each other.
- 6.19 **Recommended Practice.** Airport operators and public authorities should provide efficient services for general aviation operators or their agent(s) concerning their operational and administrative requirements.
- 6.20 Each Contracting State shall make arrangements for sufficient number of control channels so that clearance, if required, of outbound passengers and crew may be obtained with the least possible delay. Additional channels shall be available, if possible, to which complicated cases may be directed without delaying the main flow of passengers.

IV. Inbound passengers, crew and baggage

- 6.21 Contracting States shall make arrangements for a sufficient number of control channels so that clearance of inbound passengers and crew may be obtained with the least possible delay. Additional channel(s) shall be available if possible to which complicated cases may be directed without delaying the main flow of passengers.
- 6.22 **Recommended Practice.** Each Contracting State should ensure that airport operators provide adequate space in the baggage claim area permitting easy identification and speedy reclaim by each passenger of his checked baggage.
- 6.23 **Recommended Practice.** Each Contracting State should ensure that, where appropriate, mechanized baggage delivery systems are installed at international airports to facilitate the movement of passenger baggage.
- 6.24 The operators responsible for international airports shall ensure that passengers can obtain assistance in the carriage of baggage to enable them to transfer baggage from baggage claim areas to points as close as possible to areas where surface transportation from the airport or between airport terminals is provided.

V. Transit and transfer of passengers and crew

- 6.25 **Recommended Practice.** Contracting States should, whenever possible, permit passengers to remain on board the aircraft and authorize embarkation and disembarkation during refuelling, subject to the necessary safety and security measures.
- 6.26 **Recommended Practice.** Each Contracting State should ensure that airport operators provide sufficient space for handling counters in direct transit areas, in accordance

Chapter 6 Annex 9 — Facilitation

with traffic volumes. The space requirement and operating hours should be agreed between the airport and aircraft operators.

- VI. Miscellaneous facilities and services in passenger terminal buildings
- 6.27 **Recommended Practice.** Storage facilities should be provided for baggage left by their owners at international airports for later pick-up subject to security requirements.
- 6.28 Each Contracting State shall ensure that airport or aircraft operators, as appropriate, provide facilities where unclaimed, unidentified and mishandled baggage is kept securely until cleared, forwarded, claimed or disposed of in accordance with applicable laws and regulations. Authorized personnel of the aircraft operator or service provider shall have access to the baggage during the hours of airport operation.
- 6.29 **Recommended Practice.** Each Contracting State, in cooperation with airport operators, should ensure that terminal facilities are designed, managed and organized so that the non-travelling public does not interfere with the flow of inbound and outbound passengers.
- 6.29.1 **Recommended Practice.** Provisions should be made to locate facilities for group/tour operators in public or uncontrolled areas in the arrival and/or departure areas in order to minimize congestion in the terminal buildings.
- 6.30 **Recommended Practice.** Each Contracting State, in consultation with airport operators, should ensure that retail facilities, while being conveniently located, do not impede passenger flow.
 - VII. Cargo and mail handling and clearance facilities
- 6.31 **Recommended Practice.** Each Contracting State should ensure that airport operators make appropriate provision for clearance of all-cargo aircraft.
- 6.32 **Recommended Practice.** Each Contracting State, in cooperation with airport operators, should ensure that cargo terminals and their landside access roads are appropriately designed and operated to provide efficient access.
- 6.33 **Recommended Practice.** Each Contracting State, in cooperation with airport and aircraft operators, should ensure that cargo terminals are designed to facilitate the safe, sanitary, efficient and secure processing and storage of cargo in accordance with applicable laws and regulations.
- 6.34 **Recommended Practice.** Each Contracting State, in cooperation with airport and aircraft operators, should provide for appropriate facilities for the safe, efficient and secure processing and storage of mail consignments, at those international airports where the volume of mail so warrants and in accordance with applicable laws and regulations.

C. Facilities required for implementation of public health, emergency medical relief, and animal and plant quarantine measures

- 6.35 Each Contracting State, in cooperation with airport operators, shall ensure the maintenance of public health, including human, animal and plant quarantine at international airports.
- 6.36 **Recommended Practice.** Contracting States should ensure that there are, at or near all their major international airports, facilities and services for vaccination or revaccination, and for the delivery of the corresponding certificates.
- 6.37 **Recommended Practice.** International airports should have available access to appropriate facilities for administration of public health and animal and plant quarantine measures applicable to aircraft, crew, passengers, baggage, cargo, mail and stores.
- 6.38 **Recommended Practice.** Contracting States should ensure that passengers and crew in transit can remain in premises free from any danger of infection and insect vectors of diseases and, when necessary, facilities should be provided for the transfer of passengers and crew to another terminal or airport nearby without exposure to any health hazard. Similar arrangements and facilities should also be made available in respect of animals.
- 6.39 Each Contracting State shall ensure that handling and distribution procedures for consumable products (i.e. food, drink and water supplies) on board aircraft or in the airport are in compliance with the International Health Regulations (2005) and relevant guidelines of the World Health Organization, the Food and Agriculture Organization and national airport regulations.
- 6.40 Each Contracting State, in cooperation with airport and aircraft operators, shall ensure that a safe, sanitary and efficient system is instituted, at international airports, for the removal and disposal of all waste, waste water and other matters dangerous to the health of persons, animals or plants, in compliance with the International Health Regulations (2005) and relevant guidelines of the World Health Organization, the Food and Agriculture Organization and national airport regulations.
- 6.41 Each Contracting State, in cooperation with airport operators, shall ensure that international airports maintain facilities and services for first-aid attendance on site, and that appropriate arrangements are available for expeditious referral of the occasional more serious case to prearranged competent medical attention.
- Note.— Consultation with the World Health Organization on all issues concerning passenger health is advisable.

6-3

Annex 9 — Facilitation Chapter 6

D. Facilities required for clearance controls and operation of control services

- 6.42 Each Contracting State shall provide sufficient services of the public authorities concerned, without charge, during working hours established by those authorities.
- Note 1.— Under Annex 15 Aeronautical Information Services, States are obligated to publish the types and hours of clearance services (customs, immigration, health) at their international airports.
- Note 2.— In addition to services referred to above, Contracting States, airport operators or aircraft operators may wish to offer enhanced services to users (passengers, aircraft operators and other parties that would benefit from the proposed premium service), either on a free or a fee-paid, voluntary basis. Where a fee will be assessed, it should be limited to that necessary to recover the cost for the service provided.
- 6.43 **Recommended Practice.** Each Contracting State should consider making arrangements with other States to station representatives of the public authorities concerned in its territory in order to pre-examine aircraft, passengers, baggage, crew, and cargo, for customs, immigration, public health and animal and plant quarantine purposes, prior to departure when such action will facilitate clearance upon arrival in those States.

E. Unruly passengers

- 6.44 **Recommended Practice.** Each Contracting State should increase passenger awareness of the unacceptability and legal consequences of unruly or disruptive behaviour in aviation facilities and on board aircraft.
- 6.45 **Recommended Practice.** Each Contracting State should ensure that airport and aircraft operators and public authorities provide training to relevant personnel concerning the identification and management of unruly passengers, including recognition and defusing of escalating situations, and crisis containment.

Note.— Guidance material on the legal aspects of unruly/disruptive passengers can be found in Circular 288 — Guidance on the Legal Aspects of Unruly/Disruptive Passengers.

F. Passenger amenities

- 6.46 **Recommended Practice.** Each Contracting State should, where traffic justifies, ensure that airport operators provide suitable childcare facilities in passenger terminals, and that they are clearly indicated by signage and are easily accessible.
- 6.47 **Recommended Practice.** Contracting States restricting the import or export of funds of other States should provide for the issuance to travellers of certificates showing the amounts of such funds in their possession upon entering the State and should permit such travellers, upon surrender of such certificates prior to leaving the State, to take such funds with them. Inscription on the passport or other official document for travel may serve the same purpose.
- 6.48 **Recommended Practice.** Each Contracting State that restricts the import of its own currency should ensure that facilities are available for passengers to deposit any excess amount at the international airport of entry and, upon departure, to reclaim the deposited amount, at the same point or at any other designated point.
- 6.49 **Recommended Practice.** Each Contracting State should ensure that an airport operator or service provider(s), as appropriate, provide(s) passengers with information on ground transportation available at the airport.
- 6.50 Contracting States shall provide, at such times as to meet the needs of the travelling public, adequate facilities at international airports for the legal exchange of funds of other States through governmental agencies or shall authorize private agencies to do so. These facilities shall be available to arriving and departing passengers.
- Note.— In giving effect to this provision, the use of vending machines at international airports, enabling a departing passenger to obtain foreign currency, at any time of the day or night, has proved to be of valuable assistance and should be considered as a possibility by Contracting States.

19/11/09 6-4

CHAPTER 7. LANDING ELSEWHERE THAN AT INTERNATIONAL AIRPORTS

A. General

- 7.1 Each Contracting State shall take steps to ensure that all possible assistance is rendered by its public authorities to an aircraft which, for reasons beyond the control of the pilotin-command, has landed elsewhere than at one of its international airports and, to this end, shall keep control formalities and procedures, in such cases, to a minimum.
- 7.2 The pilot-in-command or the next senior crew member available shall cause the landing to be reported as soon as practicable to the public authorities concerned.

B. Short stopover

- 7.3 If it is apparent that the aircraft can resume its flight within a relatively short time of arrival, the following procedure shall apply:
- 7.3.1 Control measures shall be limited to those that ensure that the aircraft departs with the same load that was on board at the time of arrival. In case the load or part thereof cannot, for operational or other reasons, continue on that flight, the public authorities shall expedite clearance formalities and cooperate in speedy onward transportation for that load to its destination.
- 7.3.2 The public authorities shall designate, if necessary, an adequate area under their general supervision where passengers and crew can move about during their stopover.

7.3.3 The pilot-in-command shall not be required to apply to more than one government agency for take-off permission (other than for any necessary air traffic control clearance).

C. No resumption of flight

- 7.4 If it is apparent that the aircraft will be substantially delayed or is unable to continue its flight, the following provisions shall apply:
- 7.4.1 The pilot-in-command, while awaiting the instructions of the public authorities concerned or if he or his crew is unable to get in touch with them, shall be entitled to take such emergency measures as he deems necessary for the health and safety of passengers and crew and for avoiding or minimizing loss or destruction to the aircraft itself and its load.
- 7.4.2 Passengers and crew shall be permitted to secure suitable accommodation pending completion of the necessary formalities if such formalities cannot be promptly carried out.
- 7.4.3 Cargo, stores and unaccompanied baggage, if required to be removed from the aircraft for safety reasons, shall be deposited in a nearby area and remain there pending completion of the necessary formalities.
- 7.4.4 Mail shall be disposed of as is required pursuant to the Acts in force of the Universal Postal Union.

CHAPTER 8. OTHER FACILITATION PROVISIONS

A. Bonds and exemption from requisition or seizure

- 8.1 **Recommended Practice.** If a Contracting State requires bonds of an aircraft operator to cover his liabilities under the customs, immigration, public health, animal and plant quarantine, or similar laws of the State, it should permit the use of a single comprehensive bond whenever possible.
- 8.2 **Recommended Practice.** The aircraft, ground equipment, security equipment, spare parts and technical supplies of an aircraft operator located in a Contracting State (other than the Contracting State in which such airline is established) for use in the operation of an international air service serving such Contracting State, should be exempt from the laws of such Contracting State authorizing the requisition or seizure of aircraft, equipment, parts or supplies for public use, without prejudice to the right of seizure for breaches of the laws of the Contracting State concerned.

B. Facilitation of search, rescue, accident investigation and salvage

- 8.3 Subject to any conditions imposed by Annex 12 Search and Rescue and Annex 13 Aircraft Accident and Incident Investigation, Contracting States shall make arrangements to ensure entry without delay into their territories on a temporary basis of qualified personnel required for search, rescue, accident investigation, repair or salvage in connection with a lost or damaged aircraft.
- 8.3.1 In arranging for the entry without delay of the personnel referred to in 8.3, when such a document is necessary, States shall not require any other travel document than a passport (cf. 3.5).
- 8.3.2 **Recommended Practice.** In cases where a Contracting State continues to require entrance visas for the personnel referred to in 8.3, it should, when necessary and on an exceptional basis, issue such visas on arrival or otherwise facilitate their admission when such personnel carry an order of mission from the competent authority in their State.
- 8.3.3 **Recommended Practice.** Contracting States should ensure that their authorities are adequately informed of the provisions of Annexes 13 and 9 relating to the facilitation of aircraft accident and incident investigations. In this regard, States should recognize the need for the investigators concerned

- to be able to arrange transport to the site of the accident or incident without delay and, if necessary, help them to this end.
- 8.4 Each Contracting State shall facilitate the temporary entry into its territory of all aircraft, tools, spare parts and equipment required in the search, rescue, accident investigation, repair or salvage of the damaged aircraft of another State. These items shall be temporarily admitted free from customs duties and other taxes or charges and the application of regulations of any nature restricting the importation of goods.
- Note.— It is understood that this provision does not preclude the application of public health and animal and plant quarantine measures, if required.
- 8.5 Each Contracting State shall facilitate the removal from its territory of both the damaged and any assisting aircraft, together with tools, spare parts and equipment that may have been brought in for search, rescue, accident investigation, repair or salvage purposes.
- 8.6 Damaged aircraft or parts thereof, and any stores or cargo contained therein, together with any aircraft, tools, spare parts or equipment brought in for temporary use in search, rescue, accident investigation, repair or salvage, which are not removed from the territory of the Contracting State within a length of time to be specified by that State, shall be subject to the requirements of the applicable laws of the State concerned.
- 8.7 If, in connection with an aircraft accident investigation, it becomes necessary to send a part, or parts, of a damaged aircraft to another Contracting State for technical examination or testing, each Contracting State concerned shall ensure that the movement of such part, or parts, is effected without delay. The Contracting States concerned shall likewise facilitate the return of such part, or parts, to the State instituting the accident investigation should the latter State require them in order to complete the investigation.
 - C. Relief flights following natural and man-made disasters which seriously endanger human health or the environment, and similar emergency situations where United Nations (UN) assistance is required
- 8.8 Contracting States shall facilitate the entry into, departure from and transit through their territories of aircraft

Annex 9 — Facilitation Chapter 8

engaged in relief flights performed by or on behalf of international organizations recognized by the UN or by or on behalf of States themselves and shall take all possible measures to ensure their safe operation. Such relief flights are those undertaken in response to natural and man-made disasters which seriously endanger human health or the environment, as well as similar emergency situations where UN assistance is required. Such flights shall be commenced as quickly as possible after obtaining agreement with the recipient State.

- Note 1.— According to its Internationally Agreed Glossary of Basic Terms, the United Nations Department of Humanitarian Affairs considers an emergency to be "a sudden and usually unforeseen event that calls for immediate measures to minimize its adverse consequences", and a disaster to be "a serious disruption of the functioning of society, causing widespread human, material or environmental losses which exceed the ability of the affected society to cope using only its own resources".
- Note 2.— With respect to the application of measures to ensure the safe operation of relief flights, attention is drawn to Annex 11 Air Traffic Services, the Manual Concerning Safety Measures Relating to Military Activities Potentially Hazardous to Civil Aircraft Operations (Doc 9554) and the Manual concerning Interception of Civil Aircraft (Doc 9433).
- 8.9 Contracting States shall ensure that personnel and articles arriving on relief flights referred to in 8.8 are cleared without delay.

D. Marine pollution and safety emergency operations

- 8.10 In cases of emergency, Contracting States shall facilitate the entry, transit and departure of aircraft engaged in the combatting or prevention of marine pollution, or other operations necessary to ensure maritime safety, safety of the population or protection of the marine environment.
- 8.11 In cases of emergency, Contracting States shall, to the greatest extent possible, facilitate the entry, transit and departure of persons, cargo, material and equipment required to deal with the marine pollution and safety operations described in 8.10.

E. Implementation of international health regulations and related provisions

- 8.12 Contracting States shall comply with the pertinent provisions of the *International Health Regulations* (2005) of the World Health Organization.
- 8.13 Contracting States shall take all possible measures to have vaccinators use the Model International Certificate of Vaccination or Prophylaxis, in accordance with Article 36 and

Annex 6 of the *International Health Regulations* (2005), in order to assure uniform acceptance.

- 8.14 Each Contracting State shall make arrangements to enable all aircraft operators and agencies concerned to make available to passengers, sufficiently in advance of departure, information concerning the vaccination requirements of the countries of destination, as well as the Model International Certificate of Vaccination or Prophylaxis conforming to Article 36 and Annex 6 of the *International Health Regulations* (2005).
- 8.15 The pilot-in-command of an aircraft shall ensure that a suspected communicable disease is reported promptly to air traffic control, in order to facilitate provision for the presence of any special medical personnel and equipment necessary for the management of public health risks on arrival.
- Note 1.— A communicable disease could be suspected and require further evaluation if a person has a fever (temperature 38°C/100°F or greater) that is associated with certain signs or symptoms: e.g. appearing obviously unwell; persistent coughing; impaired breathing; persistent diarrhoea; persistent vomiting; skin rash; bruising or bleeding without previous injury; or, confusion of recent onset.
- Note 2.— In the event of a case of suspected communicable disease on board an aircraft, the pilot-in-command may need to follow his operator's protocols and procedures, in addition to health-related legal requirements of the countries of departure and/or destination. The latter would normally be found in the Aeronautical Information Publications (AIPs) of the States concerned.
- 8.15.1 **Recommended Practice.** When a public health threat has been identified, and when the public health authorities of a Contracting State require information concerning passengers' and/or crews' travel itineraries or contact information for the purposes of tracing persons who may have been exposed to a communicable disease, that Contracting State should accept the "Public Health Passenger Locator Card" reproduced in Appendix 13 as the sole document for this purpose.

Note.— It is suggested that States make available adequate stocks of the Passenger Locator Card, for use at their international airports and for distribution to aircraft operators, for completion by passengers and crew.

F. Communicable disease outbreak national aviation plan

8.16 A Contracting State shall establish a national aviation plan in preparation for an outbreak of a communicable disease posing a public health risk or public health emergency of international concern.

Chapter 8 Annex 9 — Facilitation

Note.— Guidance in developing a national aviation plan may be found on the ICAO website on the Aviation Medicine раде.

G. Establishment of national facilitation programmes

- 8.17 Each Contracting State shall establish a national air transport facilitation programme based on the facilitation requirements of the Convention and of Annex 9 thereto.
- 8.18 Each Contracting State shall ensure that the objective of its national air transport facilitation programme shall be to adopt all practicable measures to facilitate the movement of aircraft, crews, passengers, cargo, mail and stores, by removing unnecessary obstacles and delays.
- 8.18.1 **Recommended Practice.** In establishing a national air transport facilitation programme, States should use the guidance material outlined in Appendix 12.
- 8.19 Each Contracting State shall establish a National Air Transport Facilitation Committee, and Airport Facilitation Committees as required, or similar coordinating bodies, for the purpose of coordinating facilitation activities between departments, agencies, and other organizations of the State concerned with, or responsible for, various aspects of international civil aviation as well as with airport and aircraft operators.
- 8.20 **Recommended Practice.** Contracting States should endeavour to establish close coordination, adapted to circumstances, between civil aviation security and facilitation programmes. To this end, certain members of Facilitation Committees should also be members of Security Committees.
- 8.21 Recommended Practice.— In establishing and operating National Air Transport and Airport Facilitation Committees, States should use the guidance material outlined in Appendices 11 and 12.

H. Facilitation of the transport of passengers requiring special assistance

I. General

- 8.22 **Recommended Practice.** When travelling, persons with disabilities should be provided with special assistance in order to ensure that they receive services customarily available to the general public. Such assistance includes the offering of information and directions in media that can be understood by travellers with cognitive or sensory disabilities.
- 8.23 **Recommended Practice.** Contracting States should cooperate with a view to taking the necessary measures

to make accessible to persons with disabilities all the elements of the chain of the person's journey, from beginning to end.

- 8.24 **Recommended Practice.** Contracting States should take the necessary steps with aircraft operators, airports and ground handling operators to establish minimum uniform standards of accessibility with respect to transportation services for persons with disabilities, from arrival at the airport of departure to leaving the airport of destination.
- 8.25 Recommended Practice.— Contracting States should take the necessary steps with aircraft operators, airports, ground handling operators and travel agencies to ensure that persons with disabilities are given the information they need, and should take the necessary steps to ensure that airlines, airports, ground handling operators and travel agencies are in a position to give those passengers the assistance necessary for them, depending on their needs, to help them in their travel.
- 8.26 Recommended Practice.— Contracting States should take all necessary steps to secure the cooperation of aircraft operators, airports and ground handling operators in order to establish and coordinate training programmes to ensure that trained personnel are available to assist persons with disabilities.

II. Access to airports

- 8.27 Contracting States shall take the necessary steps to ensure that airport facilities and services are adapted to the needs of persons with disabilities.
- 8.28 Recommended Practice.— Contracting States should ensure that lifting systems or any other appropriate devices are made available in order to facilitate the movement of elderly and disabled passengers between the aircraft and the terminal on both arrival and departure as required where telescopic passageways are not used.
- 8.29 Recommended Practice.— Measures should be taken to ensure that the hearing- and vision-impaired are able to obtain flight information.
- 8.30 Recommended Practice.— For elderly and disabled persons being set down or picked up at a terminal building, reserved points should be located as close as possible to main entrances. To facilitate movement to the various areas of the airport, access routes should be free of obstacles.
- 8.31 Recommended Practice.— Where access to public services is limited, every effort should be made to provide accessible and reasonably priced ground transportation services by adapting current and planned public transit systems or by providing special transport services for people with mobility needs.

15/7/07 8-3

Annex 9 — Facilitation Chapter 8

8.32 **Recommended Practice.**— Adequate parking facilities should be provided for people with mobility needs and appropriate measures taken to facilitate their movement between parking areas and the terminal buildings.

8.33 **Recommended Practice.**— Direct transfer from one aircraft to another of passengers, particularly elderly and disabled passengers, should be authorized, where necessary and possible, whenever this is warranted by deadlines in making connecting flights or by other circumstances.

III. Access to air services

- 8.34 Contracting States shall take the necessary steps to ensure that persons with disabilities have adequate access to air services.
- 8.35 **Recommended Practice.** Contracting States should introduce provisions by which aircraft coming newly into service or after major refurbishment should conform to minimum uniform standards of accessibility with respect to equipment on board aircraft which would include movable armrests, on-board wheelchairs, lavatories and suitable lighting and signs.
- 8.36 **Recommended Practice.** Wheelchairs, special apparatus and equipment required by persons with disabilities should be carried free of charge in the cabin where, in the view of the aircraft operator, space and safety requirements permit or should be designated as priority baggage. Service animals accompanying passengers with disabilities should also be carried free of charge in the cabin, subject to the application of any relevant national or aircraft operator regulations.
- 8.36.1 Contracting States that restrict the transport of battery-powered devices, including mobility aids containing spillable batteries, shall notify ICAO promptly of such restrictions so that they can be included in Doc 9284, *Technical Instructions for the Safe Transport of Dangerous Goods by Air* and ensure that aircraft operators make such information publicly available and in accordance with Chapter 2, 2.5 of Annex 18.
- 8.37 **Recommended Practice.** In principle, persons with disabilities should be permitted to determine whether or not they need an escort and to travel without the requirement for a medical clearance. However, advance notice should be mandatory where assistance or lifting is required. Aircraft operators should only be permitted to require passengers with disabilities to obtain a medical clearance in cases of medical condition where it is clear that their safety or well-being or that of other passengers cannot be guaranteed. Furthermore,

aircraft operators should only be permitted to require an escort when it is clear that a person with disabilities is not self-reliant and, as such, the safety or well-being of that person or that of another passenger cannot be guaranteed.

8.38 **Recommended Practice.**— If the presence of an escort is required, Contracting States should encourage aircraft operators to offer discounts for the carriage of that accompanying person.

I. Assistance to aircraft accident victims and their families

- 8.39 The State of Occurrence of an aircraft accident and adjacent States shall make arrangements to facilitate the entry into their territory on a temporary basis of family members of victims of an aircraft accident.
- 8.40 The State of Occurrence and adjacent States shall also make arrangements to facilitate the entry into their territory, on a temporary basis, of authorized representatives of the operator whose aircraft has met with the accident, or of the operator's alliance partner, in order to enable them to provide assistance to survivors and their family members, the family members of the deceased victims of the accident and the relevant authorities in these States.
- Note.— Code-sharing and similar alliance agreements sometimes require alliance partners to act as "first responder" on behalf of an affected operator in case the alliance partner can get to the location of the accident quicker than the affected operator.
- 8.41 **Recommended Practice.** In arranging for the entry of the persons referred to in 8.39, the State of Occurrence and adjacent States should not require any other travel document than a passport, or an emergency travel document issued specifically to such persons, to enable them to travel to these States. In cases where the State of Occurrence of the accident or an adjacent State requires entrance visas for persons referred to in 8.39 and 8.40 above, it should expedite the issuance of such visas.
- 8.42 Contracting States shall make arrangements to issue emergency travel documents, if required, to their nationals who have survived the accident.
- 8.43 Contracting States shall extend all necessary assistance, such as arranging transport and clearing customs, in the repatriation of human remains to their countries of origin, on request by family members of the deceased or the operator whose aircraft met with the accident.

APPENDIX 6. RECOMMENDATION OF THE CUSTOMS CO-OPERATION COUNCIL*

For a Simplified Customs Control, Based on the Dual-Channel System, of Passengers Arriving by Air (8 June 1971)

"THE CUSTOMS CO-OPERATION COUNCIL,

Having Regard to Recommendation No. B-3 of the Seventh Session of the Facilitation Division of the International Civil Aviation Organization, as adopted by the Council of that Organization in December 1968, relating to the establishment at international airports of dual-channel systems for speedy clearance of inbound baggage;

Having Regard to Recommendation No. 11 adopted by the Second Intermediate Session of the European Civil Aviation Conference in July 1969 on the dual-channel or red/green system;

Desiring to contribute to the efforts to improve the flow of passenger traffic at international airports;

Considering that this aim can be achieved by introducing a simplified procedure, based on the dual-channel system, for the Customs control of passengers and their baggage;

Considering that such a system can be adopted without reducing the effectiveness of the control and that it enables Customs authorities to deal efficiently with an increasing number of passengers without a corresponding increase in the number of Customs staff;

Considering that harmonization of the features of this system, as between the various countries, is essential to its smooth operation;

Recommends that Members introduce, at their major international airports, in close co-operation with the airport operators and other agencies concerned, the dual-channel system outlined below for the clearance inwards of passengers and their baggage:

- 1) The system shall allow the passengers to choose between two types of channels:
 - a) one (green channel) for passengers having with them no goods or only goods which can be admitted free

- of import duties and taxes and which are not subject to import prohibitions or restrictions; and
- b) the other (red channel) for other passengers.
- 2) Each channel shall be clearly and distinctively marked so that the choice between them can easily be understood by passengers. The basic distinctive marking shall be:
 - a) for the channel referred to under 1) a), green, in the shape of a regular octagon, and the words "NOTHING TO DECLARE" ("RIEN À DÉCLARER");
 - b) for the channel referred to under 1) b), red, in the shape of a square, and the words "GOODS TO DECLARE" ("MARCHANDISES À DÉCLARER").
 - In addition, the channels should be identified by an inscription including the words "CUSTOMS" ("DOUANE").
- 3) The texts referred to in paragraph 2) shall be in English and/or French and in any other language or languages deemed useful for the airport concerned.
- 4) Passengers must be sufficiently well informed to choose between the channels. For this purpose it is important:
 - a) that passengers be informed about the functioning of the system and about the descriptions and quantities of goods they may have with them when using the green channel. This may be done by means of posters or panels at the airport or by means of leaflets available to the public at the airport or distributed through tourist agencies, airlines and other interested bodies;
 - b) that the route to the channels be clearly signposted.
- 5) The channels shall be located beyond the baggage delivery area so that passengers have all their baggage with them when choosing their channel. Moreover, the channels shall be so arranged that the passenger flow from that area to the exits from the airport is as direct as possible.

^{*} Now known as the World Customs Organization (WCO).

Annex 9 — Facilitation Appendix 6

- 6) The distance between the baggage delivery area and the entrances to the channels shall be sufficient to allow passengers to decide which channel to choose and to move into that channel without causing congestion.
- 7) In the green channel passengers shall not be subject to any Customs formalities but the Customs may make spot checks; in the red channel passengers shall accomplish the formalities required by the Customs;

Points out that the dual-channel system is not necessarily incompatible with the application of other controls, for example, exchange control, unless the relevant regulations require full control of the passengers and their baggage;

Requests Members who accept this Recommendation to notify to the Secretary General:

- a) their acceptance and the date from which they will apply the Recommendation;
- b) the names of the airports where the dual-channel system is applied.

The Secretary General will transmit this information to the Customs Administrations of Members, to the Secretary General of the International Civil Aviation Organization (ICAO) and to the Director General of the International Air Transport Association (IATA)."

APPENDIX 11. MODEL AIRPORT FACILITATION (FAL) PROGRAMME

1. PURPOSE OF AN AIRPORT FAL PROGRAMME

The purpose of an airport FAL programme is to pursue the objectives of Annex 9 at the operational level, to facilitate the completion of border clearance formalities at the airport with respect to aircraft, crews, passengers and cargo.

2. SCOPE OF AN AIRPORT FAL PROGRAMME

The airport FAL programme encompasses all of the provisions of Annex 9 concerning border clearance processes at the airport, as well as the planning for and management of those processes. A representative list of tasks to be performed and the Standard(s) or Recommended Practice(s) (SARPs) applicable to each one are provided in the table below.

3. ORGANIZATION AND MANAGEMENT

- 3.1 The recommended vehicle to conduct the facilitation programme at the operational level is the Airport Facilitation Committee. Although such committees should be encouraged by the National FAL Committee and keep it informed of their problems and progress, they are not necessarily supervised by the national body. Their principal concern is day-to-day problem-solving and implementation of Annex 9.
- 3.2 It is recommended that the airport manager take charge of the committee and convene regular meetings. Membership should consist of the senior officers in charge of their respective inspection agencies at the airport, e.g. customs, immigration, health, quarantine, etc., as well as the station managers of the aircraft operators with international operations at the airport concerned. The participation of all parties is necessary to make the airport FAL programme a success.

Airport FAL programme task	Annex 9 (12th Edition) SARPs
Establish, review and amend, as necessary, procedures for entry and clearance of flights at the airport concerned.	Recommended Practice 6.1.1; Standards 6.1.2 to 6.1.4 and 8.17
Review regularly all parties' performance with respect to meeting the 45-minute goal for processing inbound passengers and the 60-minute goal for processing outbound passengers. Use time studies and queue analysis to determine where adjustments should be made.	Recommended Practices 3.36 and 3.39
Establish modern systems for immigration and customs inspection, using applicable technology. Collaborate in setting up automated passenger clearance systems.	Standards 3.40, 3.51, 4.6, 6.20 and 6.21
Make necessary changes in traffic flows and checkpoints in the airport to cope with rising traffic volumes.	Recommended Practice 6.1.1
Improve the quality and quantity of signage in the inspection facilities in order to reduce customer confusion.	Recommended Practices 6.9 and 6.12
Review staffing of inspection stations – work shifts, overtime, etc. – and seek adjustments to meet traffic demands.	Recommended Practice 6.3
Provide input on behalf of resident aircraft operators and inspection agencies to the design of new airports or new inspection facilities.	Standards 6.1.4 and 6.2
Monitor and improve delivery of baggage to the customs inspection area.	Recommended Practices 6.8 and 6.22
Coordinate facilitation, narcotics control, aviation security and dangerous goods handling procedures so that the objectives of all four programmes are met.	Standard 8.19
Do not forget cargo! Coordinate the activities and requirements of the various inspection agencies in order to assure prompt clearance and delivery of air cargo shipments. Provide adequate facilities for loading/unloading and for secure storage of cargo while awaiting customs clearance.	Standard 4.25; Recommended Practices 4.28 and 4.29 and 6.31 to 6.34 incl.
Set up and maintain electronic systems for cargo manifesting, customs clearance, and delivery.	Standards 4.4 and 4.15

Annex 9 — Facilitation Appendix 11

Airport FAL programme task	Annex 9 (12th Edition) SARPs
Customer service: Review regularly all parties' performance with respect to meeting the 3-hour goal for completion of inspection formalities and make adjustments where necessary and feasible.	Recommended Practices 4.28 and 4.29
Review inspection agency staffing of cargo clearance area – work shifts, overtime, etc. – and seek adjustments to meet customer needs.	Standards 6.1.3 and 6.42

19/11/09 No. 21 APP 11-2

APPENDIX 12. MODEL NATIONAL FAL PROGRAMME

1. PURPOSE OF A NATIONAL FAL PROGRAMME

The purpose of a National FAL Programme is to implement the Chicago Convention mandate that Contracting States provide for and facilitate the border-crossing formalities that must be accomplished with respect to aircraft engaged in international operations and their passengers, crews and cargo.

2. SCOPE OF A NATIONAL FAL PROGRAMME

The applicable articles of the Chicago Convention and the tasks involved in implementing each one are presented in the table below. Activities aimed at accomplishing these and related tasks in a State constitute the National FAL Programme. ¹

3. ORGANIZATION AND MANAGEMENT

3.1 The primary responsibility for the National FAL Programme rests with the Civil Aviation Authority (CAA) and/or the Ministry of Transport. However, success of the programme requires the active participation of other ministries or agencies, such as:

Customs
Foreign Affairs
Agriculture/environment
Security and narcotics control
Tourism
Immigration

Passport/visa issuing authorities Public Health Identification card issuing authorities Quarantine

3.2 In addition, the active participation of airport operators (public or private) and resident international aircraft operators or their representative organizations is essential.

- 3.3 Other entities which may play an advisory role include the governmental agencies or non-governmental organizations which promote international tourism and trade.
- 3.4 The recommended vehicle for carrying out the National FAL Programme is the National FAL Committee, which is composed of the heads of the government agencies involved and the chief executive officers of the national organizations representing the aircraft operators and airport operators. The chairman should be a top-management official in the CAA or an appropriate authority. In order to sustain a close link between the national FAL committee and the national aviation security committee, appropriate members from the national aviation security committee may also be members of the national FAL committee and vice-versa.
- 3.5 For the purpose of carrying out the work of the committee, the members may designate one or more middle-management persons in their respective organizations to represent them in meetings at the staff level (working groups). These officials should be given sufficient authority to speak on behalf of their respective organizations and to initiate necessary action in support of the committee's work. The chairman should designate a middle-management official in his department or agency to chair and convene the staff-level meetings.
- 3.6 The decision to convene meetings of the National FAL Committee or the members' designated representatives, and the frequency and venue of such meetings, are matters of the chairman's discretion. Working arrangements for accomplishment of the various implementing tasks would depend on the nature of the task and the issue at hand.

4. ESTABLISHMENT OF A NATIONAL FAL PROGRAMME

It is advisable that the authority for a National FAL Programme and the membership of the National FAL Committee be established through legislation, regulation, or executive action from an authorized person, in order to ensure the participation of the various agencies and industry groups involved and to make provision for continuity. The Director General of Civil Aviation (DGCA) or appropriate authority should initiate the process to obtain such a mandate through the national political system.

A group of smaller States with similar needs and goals may decide to establish a sub-regional FAL programme in the interest of achieving economies of scale.

Annex 9 — Facilitation Appendix 12

Chicago Convention mandate	Implementing tasks
Article 10 – Landing at customs airport every aircraft which enters the territory of a contracting State shall, if the regulations of that State so require, land at an airport designated by that State for the purpose of customs and other examination. On departure from the territory of a contracting State, such aircraft shall depart from a similarly designated customs airport	 Establish customs airports and open new ones as appropriate. Develop procedures by which operators of scheduled and non-scheduled services may request permission to land or depart from customs airports. Arrange for border inspection services at customs airports.
Article 13 – Entry and clearance regulations The laws and regulations of a contracting State as to the admission to or departure from its territory of passengers, crew or cargo of aircraft, such as regulations relating to entry, clearance, immigration, passports, customs, and quarantine shall be complied with by or on behalf of such passengers, crew or cargo upon entrance into or departure from, or while within the territory of that State.	Support the interested border control agencies in the establishment and maintenance of effective inspection systems at airports, and in their efforts to rationalize their respective procedures. Develop programmes for control of security problems such as document fraud, illegal migration and smuggling. Coordinate preparations for clearing large numbers of
	international visitors for special events, e.g. international athletics competitions.
Article 14 – Prevention of spread of disease Each contracting State agrees to take effective measures to prevent the spread by means of air navigation of cholera, typhus (epidemic), smallpox, yellow fever, plague, and such other communicable diseases as the contracting States shall from time to time decide to designate,	 Establish, review and amend as necessary the national policies regarding prevention of the spread of contagious diseases by air, for example, aircraft disinsection, disinfection, public health-related quarantine programmes, and screening measures to be applied in a health emergency.
Article 22 – Facilitation of formalities Each contracting State agrees to adopt all practicable measures, through the issuance of special regulations or otherwise, to facilitate and expedite navigation by aircraft between the territories of contracting States, and to prevent unnecessary delays to aircraft, crews, passengers and cargo, especially in the administration of the laws relating to immigration, quarantine, customs and clearance.	Establish, review and amend as necessary the national regulations which implement the State's customs, immigration and quarantine laws pertaining to international movements by air.
Article 23 – Customs and immigration procedures Each contracting States undertakes, so far as it may find practicable, to establish customs and immigration procedures affecting international air navigation in accordance with the practices which may be established or recommended from time to time, pursuant to this Convention	 Establish and amend as appropriate, customs and immigration procedures carried out at airports, to harmonize them with the standards and recommended practices set forth in Annex 9. Support and advocate the national issuance of passports and other travel documents in accordance with ICAO specifications in Doc 9303 – Machine Readable Travel Documents.
Article 37 – Adoption of international standards and procedures Each contracting State undertakes to collaborate in securing the highest practicable degree of uniformity in regulations, standards, procedures, and organization in relation to aircraft, personnel, airways and auxiliary services in all matters in which such uniformity will facilitate and improve air navigation.	Participate in ICAO development of Annex 9. Review national procedures periodically in order to ensure harmonization with the provisions of Annex 9.
(j) Customs and immigration procedures	
Article 38 – Departures from international standards and procedures Any State which finds it impracticable to comply in all respects with any such international standard or procedure, or to bring its own regulations or practices into full accord with any international standard or procedure after amendment of the latter, or which deems it necessary to adopt regulations or practices differing in any particular respect from those established by an international standard, shall give immediate notification to the International Civil Aviation Organization of the differences between its own practice and that established in the international standard	Periodically review conformity by all relevant agencies with the provisions of Annex 9 and notify ICAO of differences between national practices and the relevant standards.

ICAO PUBLICATIONS AND RELATED PRODUCTS IN THE AIR TRANSPORT FIELD

The following summarizes the various publications and related products in the air transport field issued by the International Civil Aviation Organization:

- International Standards and Recommended Practices (SARPs) adopted by the Council in accordance with Articles 37, 54 and 90 of the Convention on International Civil Aviation and designated, for convenience, as Annexes to the Convention. Annex 9 Facilitation contains SARPs dealing with customs, quarantine, immigration and health matters concerned with international air navigation. Annex 17 Security is composed of SARPs on all matters related to safeguarding civil aviation against acts of unlawful interference. Any differences between the national regulations and practices of a State and what is prescribed by an International Standard must be notified to the Council in accordance with Article 38 of the Convention. The Council has also invited Contracting States to notify differences from the provisions of the Recommended Practices.
- *ICAO's policies* on the regulation of international air transport, charges for airports and air navigation services, and taxation in the field of international air transport.
- Technical specifications on machine readable travel documents (MRTDs).
- Tariffs for airports and air navigation services, including charges applied towards users in more than 180 States.
- Manuals providing information or guidance to Contracting States on such issues as regulation of
 international air transport, financial management of airports and air navigation services, air traffic
 forecasting methods, and compliance with Annex 17 provisions.
- Circulars providing specialized information of interest to Contracting States. They include studies
 on medium- and long-term trends in the air transport industry at a global and regional level and
 specialized studies of a worldwide nature covering issues such as the economic and financial
 aspects of CNS/ATM systems implementation, regional differences in airline operating economics,
 economic contribution of civil aviation, privatization of airports and air navigation services, and
 regulatory implications of slot allocation.
- Aviation Security Training Packages (ASTPs) and courses on a range of subjects designed to assist
 security professionals, managers and staff in developing a more comprehensive understanding of
 SARPs, as well as to offer specialized practical expertise in the implementation and monitoring of
 measures and provisions in accordance with local programmes. For further information, please
 contact avsec@icao.int or visit the training page on the ICAO AVSEC website at www.icao.int/
 avsec.
- Publications in electronic form, in database and interactive forms, such as the world's air services
 agreements and the ICAO template air services agreements. Civil aviation statistics can be
 accessed by purchasing an annual subscription to one or more of the data series distributed by
 ICAO through its commercial website at www.icaodata.com. Questions regarding ICAO statistics
 or special orders for statistical data should be sent to sta@icao.int.
- Reports of meetings in the air transport field, including reports on the Facilitation and Statistics
 divisional-type meetings and those related to conferences on aviation security, regulation of
 international air transport, and economics of airports and air navigation services.
